DIRECTIONS

A fine sized surface spray for control
of crawling insects like roaches, ants,
beetles and carpet beetles, or flying
insects as flies, mosquitoes, etc.

**ROACHES, WATERBUGS, SILVERFISH
CRICKETS:** Spray these insects
around, underneath, into crevices, cracks
and other hiding places such as under
sinks, drainboards, stoves, and
around baseboards and skirting.
Where they pass through walls.
The objective should be to reach
the locations where insects will travel
when they come out of hiding.

ANTS: Observe the ants to find points
of travel or passage, and spray
along trails, also in cracks, under
door frames and floors.

**FLIES, MOSQUITOES, WASPS, FLYING
MOTHS, JUNE BUGS:** Use the spray
outdoors only as an outdoor bug
repellent from these insects. Spray
the outside surface of eaves, porches,
and window frames. Also spray
down the sides of buildings and
other structures where they are
likely to appear.

SCORPIONS AND SPIDERS: Spray
the areas where they are likely to
appear. Also spray the areas where
they are likely to hide. Spray
the areas where they are likely to
hide. Spray the areas where they
are likely to hide.

CARPET BEETLES: Spray
the areas where they are likely to
appear. Also spray the areas where
they are likely to hide. Spray
the areas where they are likely to
hide.
