DIRECTIONS FOR USE

To operate remove protective
cap. Hold can upright. Point
nozzle in desired direction for
spray. Press valve down. Point
away from face.

**CONTROL OF FLIES, MOSQUI-
TOES, FLYING MOTHS, OTHER
SIMILAR FLYING INSECTS:** Spray
upwards into 4 corners of closed
room. Fill room with mist. Close
windows and doors for about 15
minutes after treatment.

**ROACHES, SILVERFISH, ANTS,
SPIDERS:** Spray liberally into
cracks of woodwork, walls, floors,
hiding and breeding places;
directly on insects when possible.
Repeat when necessary. Cover
cooking utensils, dishes and food
before spraying.

BEDBUGS: Spray bed frame,
springs, mattress tufts, seams,
and all cracks and hiding places
about bedroom. Will not rust
metal. Repeat weekly to prevent
breeding.

Use the product as a space spray
in food processing plants only
when vent is not in operation.
Foods should be removed or
covered during treatment. All
food processing surfaces should
be covered or thoroughly cleaned
before using.

CAUTION: Do not puncture
container or dispose of in fire.
Container should not be placed
where temperature exceeds
130° Fahrenheit. Harmful if
swallowed. Keep out of reach
of children. Do not spray on
food. Do not spray directly on
painted surfaces.
