

Delta

Foremost

HIGHLY ACTIVE

Granular pink product containing available chlorine with detergent action.

SOLUBLE

Dissolves completely.

SANITIZES

Lowers bacterial count.

DEODORIZES

Disinfects most odor producing bacteria.

Recommended for dairies, food processing plants, bottling plants, packing houses and poultry houses.

DIRECTIONS

For use in disinfecting and sanitizing dairy utensils and other dairy equipment, it is recommended that a solution be used on the basis of 1 1/2 ounces of Chlorinated Disinfectant per 3 1/2 gallons of water, which provides 100 ppm available chlorine. This solution should be maintained at a concentration of above 50 ppm. It is important that all equipment be first cleaned and rinsed prior to disinfecting with the Chlorinated Disinfectant solution.

SOLUTIONS FOR USE

50 PPM Available Chlorine	1/2 oz. Chlor-Dis per 3 1/2 gals. water
100 PPM Available Chlorine	1 oz. Chlor-Dis per 3 1/2 gal. water
200 PPM Available Chlorine	3 oz. Chlor-Dis per 3 1/2 gals. water

DIRECTIONS (Continued)

A solution of 3 ounces of Chlorinated Disinfectant per 3½ gallons of water can also be used on the dairy farm on milking machines and utensils after cleaning as well as washing cows' udders and the milker's hands.

For use in disinfecting and sanitizing equipment in food and beverage plants it is recommended that a solution of 1 lb. Chlorinated Disinfectant per 35 gallons of water be used, applying in such manner that all parts and surfaces are properly reached with this solution.

CAUTION: HARMFUL IF SWALLOWED. KEEP OUT OF REACH OF CHILDREN.

Alkaline material. In case of ingestion feed egg whites or milk and call a physician. Avoid prolonged contact with skin and contact with the eyes. In case of contact with skin or eyes, flush thoroughly with water.
