DIVISION

This product is a ready to use space or contact spray insecticide for control of flies, mosquitoes, gnats, roaches, water bugs, crickets, flying moths, exposed forms of crawling grain pests and other small flying moths in interior areas. Frequent spraying of garbage cans also helps in the control of flies.

EFFECTIVE

Quick knock-down and high rate of kill cut down insect populations.

RECOMMENDED FOR USE IN...

Offices, stores, factory work areas, warehouses, dairies, granaries, elevators, food plants, or wherever the flying insect population has increased to an intolerable level. The above listed facilities are treated most effectively when not in operation.

NOTICE

The use of this product being beyond our knowledge and control and involving elements of risk if misused, we do not make any warranty expressed or implied as to the effects of any use not in explicit accordance with the claims, directions and cautions set forth on this label.

MISTOL WB

Insecticide

WATER BASED NON-OILY NO FILM

ACTIVE INGREDIENTS:

Pyrethrins	0.10%
**Piperonyl Butoxide, Technical	0.20%
N-Octyl Bicycloheptene Dicarboximide	0.33%
Petroleum Distillate	0.48%

INERT INGREDIENTS: 98.89%
100.00%

**Consists of 0.16% (butylcarbityl) (6-propyl-p-teronyl) ether and 0.04% related compounds

**SOLD FOR COMMERCIAL AND INDUSTRIAL PURPOSES ONLY.
NOT FOR HOUSEHOLD USE.**

**CAUTION:
KEEP OUT OF REACH OF CHILDREN.**

See Right Panel for Required Precautions

EASY TO USE...

DIRECTIONS

1. For space spray to kill flies, mosquitoes, gnats and small flying moths: Shake container gently to be sure contents are uniformly mixed. Pour in sprayer, close doors and windows and turn off ventilating equipment. Mist all parts of the room or area at a dosage of one fluid ounce of spray per 1,000 cubic feet of space. Repeat as needed. Do not remain in treated areas. Ventilate the area after treatment is completed.
2. For contact spray to kill roaches, waterbugs, and crickets: Shake container gently as above. Apply as a coarse spray to all cracks and crevices in woodwork, beneath sinks, dark places behind pipes and in all places where these insects nest, contacting as many insects as possible with the spray. Repeat application as often as necessary to gain control.
3. For control of exposed forms of the confused flour beetle, rice weevil, Granary weevil, Saw-toothed grain beetle, flat beetle, red flour beetle, rusty grain beetle, lesser grain borer, cadelle and Indian meal moth, apply a coarse spray to all interested surfaces, insect hiding places and insect runways at a rate of one gallon of spray on 750 square feet of area. Repeat as necessary.

CAUTION: Harmful if swallowed. Food and Food-stuffs should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when plant is not in operation. After spraying in Meat Packing Plants, wash with potable water all equipment, benches, shelving, etc. where exposed food will be handled. Keep container closed. Remove pets, birds and cover aquariums before spraying.

NOTE: Do not reuse container. Destroy when empty.
