

work. For effective control, repeat application as required.

FLIES, MOSQUITOES: Use outdoors only: For killing and preventing the entry of these insects indoors, spray a heavy coarse spray on the outside surfaces of doors, windows, screens, around light fixtures, on open porches, and other surfaces where these insects appear. Also may be used around garages, sheds, outhouses, and garbage cans, by spraying a heavy coarse spray on infested surfaces where the pests crawl or appear. Repeat treatment as often as needed.

SPIDERS, SCORPIONS, WASPS, CENTIPEDES: Apply a heavy spray until infested areas are wet; such as around window frames, door sills, or wherever these insects may enter the building. To effectively control these pests in non-household structures, such as garages and outhouses, spray infested surfaces over which they crawl or appear. For best residual control repeat as needed.

ANTS: Spray until wet, along the back of shelves, and the openings around the pipes, heat ducts, electrical outlets, or baseboards where ants may come out into rooms from wall spaces and partitions and ant trails. To maintain effective control repeat application as often as necessary.

BROWN DOG TICKS: Treat thoroughly the same as for roaches. Spray heavy application around baseboards, window and door frames, wall cracks, sleeping quarters of pets, and other infested surfaces. Spray infested areas of flooring and floor coverings. Fresh bedding should be placed in animal's quarters following treatment. Do not treat pets or other animals. The frequency and extent of application required to infest surfaces will depend upon the source and intensity of the infestation.

Recommended for maintenance control of infestation in industrial plants, warehouses, around bakeries, dairies, restaurants, hotels, food processing plants.

APPLICATION WITHIN FOOD HANDLING ESTABLISHMENTS:
Cracks and Crevices Treatment

99-33X

THIS PRODUCT CONTAINS THE NEXT INGREDIENT, ALIPHATIC PETROLEUM HYDROCARBON.

APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS
CAUTION**

Do not allow children to contact treated surface until surfaces are completely dry. Do not use as a space spray. Harmful if swallowed or inhaled or absorbed through skin. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Avoid contact with skin and eyes. Keep away from heat and open flame. Remove pets and cover fish bowls before spraying.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed—Contact a physician or poison control center. Do not induce vomiting unless directed by a physician. Contains Petroleum Distillate. Vomiting may cause aspiration pneumonia. To physician—Atropine sulfate is antidote.

If Inhaled—Remove affected person to fresh air. Apply artificial respiration if indicated.

If in Eye or on Skin—Flush with plenty of water. Contact a physician if irritation persists.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment, or disposal of waste. Do not apply where runoff is likely to occur. Apply this product only as specified on this label.

Do not puncture. Contents under pressure. Do not store near heat or open flame. Exposure to temperatures above 130°F. may cause bursting. Do not throw container into fire or incinerator.

Do not spray into or near fire or other open flame. Do not smoke while spraying. Do not breathe vapor. Wrap container and put in
