

E EXTRA SPECIAL **S**

A liquid, non-selective, persistent, general herbicide for control of most succulent vegetation in disturbed areas.

EFFECTIVE:

The balanced blend of components assures full plant growth at the time of application. Translocation and systemic herbicides produce extensive root kill of weeds for long-term control.

ECONOMICAL:

When used according to directions, will provide long-term weed control.

READY TO USE:

Apply anytime of the year except when ground is frozen, after weeds have emerged and developed. High application rates, 2 inches for maximum penetration to root systems for long-term control.

RECOMMENDED FOR:

Non-crop areas such as fence rows, parking lots, roads, pipelines, industrial plants and other similar areas.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE AND SPILL PROCEDURE

Store upright at room temperature. Do not spill or leak. Do not store near fertilizer, seeds, insecticides or herbicides. In case of leakage, soak up with an absorbent material. Dispose of properly.

PESTICIDE DISPOSAL:

Pesticide waste are toxic. Improper disposal of wastes is a violation of Federal Law. If waste disposal is required, according to label instructions, contact your State Pesticide Control Agency or the Hazardous Waste representative Regional Office for guidance.

CONTAINER DISPOSAL:

Triple rinse (or equivalent) then offer for recycling or reuse and dispose of in a sanitary landfill, or by other means approved by local authorities.
