DIRECTIONS

Aut

FLAK

Fleas and Ticks

Apply to the animal's body, avoiding the face and eyes. Use a fine mist spray. Wash the animal's body with water after treatment.

Granary Weevils . . . Confused Flour Beetles

Apply to the surface of the flour or grain. Use a fine mist spray. Wash the surface with water after treatment.

CAUTION

IN FOOD PROCESSING PLANTS use only in areas where food is not in contact with the spray. Food should be covered or removed. All food processing surfaces covered should be thoroughly cleaned before using.
