Directions

Remove cap, hold container upright and depress button.
Do not spray in inverted position. Keep container 6 to 12
 inches from animal.

To control fleas, lice, and ticks, spray directly on animal,
 rubbing against lay of hair, spraying so that mist pene-
 trates to skin. Spray until animal is slightly wetted by
 spray. Spray more heavily where ticks are a problem,
 attempting to spray ticks until wet wherever possible.

To control fleas and ticks in sleeping quarters, mist area
 thoroughly, being certain mist penetrates bedding and
 all cracks and crevices. Repeat once per week if neces-
 sary.

CAUTION: Do not spray on food or foodstuffs. Do not
 store over 130 F. Do not puncture or incinerate con-
 tainer or expose to extreme cold. Avoid prolonged con-
 tact with skin. Avoid prolonged inhalation of mist. Wash
 thoroughly after using.
