

Odorless "A" is formulated to sanitize food processing equipment and other non-porous inanimate surfaces in food contact locations.

Odorless "A" is an effective disinfectant for use in hospitals, nursing homes, other health care institutions, schools, barber and beauty salons, kennels, poultry and animal housing facilities, when used as directed.

SANITIZING DAIRY COWS: The udders, flanks and teats of dairy cows may be sanitized by washing with a solution of 1 oz. Odorless "A" in 4 gallons of warm water. Use a fresh towel for each cow. Avoid contamination of sanitizing solution by dirt and soil. Do not dip used towel back into sanitizing solution. When solution becomes visibly dirty, discard and provide fresh solution.

Precautionary Statements

Hazards to Humans and domestic animals

DANGER

Keep out of reach of children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.
- OPEN DUMPING IS PROHIBITED.
- DO NOT REUSE EMPTY CONTAINER.

PESTICIDE DISPOSAL

PESTICIDE OR RINSATE THAT CANNOT BE USED OR CHEMICALLY REPROCESSED SHOULD BE DISPOSED OF IN A LANDFILL APPROVED FOR PESTICIDES OR BURIED IN A SAFE PLACE AWAY FROM WATER SUPPLIES.

CONTAINER DISPOSAL

TRIPLE RINSE (OR EQUIVALENT) AND DISPOSE IN AN INCINERATOR OR LANDFILL APPROVED FOR PESTICIDE CONTAINERS, OR BURY IN A SAFE PLACE.

GENERAL

CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES SUCH AS LIMITED OPEN BURNING.

ODORLESS "A"

Disinfectant/Sanitizer/Fungicide/Deodorizer

Formulated for Hospital, Industrial, School, Institutional, Food Processing Facilities, Dairies and Farm Use

Active Ingredients

Alkyl (60% C ₁₄ , 30% C ₁₆ , 5% C ₁₂ , 5% C ₁₈) dimethyl benzyl ammonium chlorides	5.0%
Alkyl (68% C ₁₂ , 32% C ₁₄) dimethyl ethylbenzyl ammonium chlorides	5.0%
<u>Inert Ingredients</u>	90.0%
Total	100.0%

KEEP OUT OF REACH OF CHILDREN

DANGER

Statement of Practical Treatment

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

DIRECTIONS FOR USE

General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Odorless "A" has been tested and proven an effective sanitizer in water up to 750 ppm hardness calculated as CaCO_3 , at 1 oz. per 4 gallons of water, when evaluated by the AOAC Germicidal and Detergent Sanitizer Method against *Escherichia coli* and *Staphylococcus aureus*.

SANITIZING: For food processing equipment, dairy equipment, food utensils, dishes, silverware, glasses, sink tops, countertops, refrigerated storage and display equipment and other non-porous inanimate surfaces. Wash and rinse all articles or surfaces thoroughly and apply a solution of 1 oz. Odorless "A" in 4 gallons of water (200 ppm active). Surfaces must remain wet for at least one minute, followed by adequate draining or air drying. Fresh solution should be prepared daily, or when used solution becomes visibly dirty. Apply to countertops, refrigerated storage and display equipment, sink tops and other stationary hard surfaces with a cloth, mop or brush.

Dishes, silverware, glasses, cooking utensils, and similar size food processing equipment items may be sanitized by immersion in a 1 oz./4 gallons of water solution of Odorless "A". No Potable water rinse is required.

DISINFECTING: For general, non-hospital use on hard inanimate surfaces, dilute Odorless "A" at 3 oz. to 5 gallons of water. At this dilution level, Odorless "A" is effective against *Staphylococcus aureus* and *Salmonella choleraesuis*. Apply solution to previously cleaned floors, walls, countertops, tables, chairs and other hard inanimate surfaces with a mop, cloth or brush.

For disinfecting barber tools, pre-cleaned combs, brushes, razors and scissors may be immersed in a .6 oz./gallon of water solution of Odorless "A" (3 oz./5 gallons).

For hospital use, dilute Odorless "A" at 4.5 oz. to 5 gallons of water. At this dilution level, Odorless "A" is effective against *Pseudomonas aeruginosa*. Apply solution to previously cleaned floors, walls, bedframes, bathing areas, lavatories and other hard inanimate surfaces. Odorless "A" may be applied to previously cleaned surfaces with a cloth, mop, brush or mechanical spray device. When applied with a mechanical spray device, the surface must be sprayed until thoroughly wet. Treated surfaces must remain wet for 10 minutes. Fresh solution should be prepared daily, or when the solution becomes visibly dirty. With mechanical application, use solution may not be reused for sanitizing applications.

DISINFECTING POULTRY and ANIMAL HOUSING FACILITIES and KENNELS: Poultry brooders, watering fountains, feeding equipment, animal stalls and kennel areas may be disinfected, after thorough cleaning, by applying a solution of 4.5 oz. Odorless "A" in 5 gallons of water with a mop, cloth or brush. Small utensils should be immersed in the solution. Prior to disinfecting, all poultry, animals and their feeds must be removed from the premises. This includes emptying all troughs, racks and other feeding and watering appliances. Remove all litter and droppings from floors, walls and other surfaces occupied or traversed by poultry and animals. After disinfecting, ventilate buildings, coops and other closed spaces. Do not house poultry or animals, or employ equipment, until treatment has been absorbed, set or dried. All treated equipment that will contact feed or drinking water must be rinsed with potable water before reuse.

FUNGICIDAL ACTIVITY: When diluted 8 oz./5 gallons of water, Odorless "A" is effective against *Trichophyton interdigitale* (athlete's foot fungus) on inanimate hard surfaces.

Industrial Chemical Laboratories, Inc. warrants only that its products conform to the descriptive information on the label and that the products are reasonably safe for the uses described on the label when used in accordance with the directions for use.

Technical Director

Gentlemen:

Subject: Industrial Odorless A Disinfectant
EPA Registration No. 1239-27
Your Application Dated July 30, 1982

The amendment referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A), is acceptable, provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

a. We have noted a product name change

Old: Industrial Odorless A Disinfectant

Now: Odorless "A"

b. Revise the statement (Sanitizing section right panel)

"...display equipment and other hard nonporous inanimate surfaces"

to read

"...display equipment and other hard nonporous inanimate surfaces."

- c. Revise the statement (Disinfecting action, right panel, two locations)

"...hard inanimate surfaces..."

to read

"...hard nonporous inanimate surfaces...."

- d. For the label size submitted, the STORAGE AND DISPOSAL heading and the Child Hazard warning "KEEP OUT OF REACH OF CHILDREN" would require a 12-point type size minimum and the signal word DANGER (front panel only) would require an 18-point type size minimum.
- e. Future revisions may be required based on interpretations of warranty/disclaimer statements as declared on your label by our General Counsel for Program Support, Office of General Counsel. In lieu of future revisions, we prefer you delete the warranty/disclaimer statements from your label (left panel).

3. Submit a revised Confidential Statement of Formula reflecting the utilization of the ~~ingredient~~. Your current confidential only declares an onyx product as the sole source of your active ingredient. All this information is available from your supplier, Lonza Inc.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

John H. Lee
