

404

DIRECTIONS FOR USE
GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SANICLEEN 256 has been tested and proven effective as a one-step disinfectant, cleaner, sanitizer, fungicide, mildewstat and virucide. These tests proved effectiveness in water up to 400 ppm hardness in the presence of 5% serum contamination.

Apply SANICLEEN 256 to floors, walls, tables, chairs, sinks, bedframes, countertops and other hard inanimate non-porous surfaces such as tile and porcelain with a cloth, mop or mechanical spray device, thoroughly wetting the surfaces. Heavily soiled areas require preliminary cleaning to remove excess soil. Prepare fresh solution daily or when solution becomes visibly dirty.

DISINFECTING: For use on hard, non-porous surfaces, dilute SANICLEEN 256 at 1/2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this dilution level, SANICLEEN 256 is also virucidal, fungicidal and fungistatic.

At the 1/2 oz. per gallon dilution level, SANICLEEN 256's broad spectrum of activity is effective against these organisms as tested by the AOAC Use-Dilution test method:

- | | |
|---------------------------|-----------------------------|
| Pseudomonas aeruginosa | Enterobacter aerogenes |
| Staphylococcus aureus | Streptococcus faecalis |
| Salmonella choleraesuis | Shigella dysenteriae |
| Escherichia coli | Brevibacterium ammoniagenes |
| Streptococcus pyogenes | Salmonella typhi |
| Klebsiella pneumoniae | Serratia marcescens |
| Salmonella schottmuelleri | |

1231-4

SANITIZING: Use SANICLEEN 256 at 1/2 oz. per 5 1/2 gallons of water to sanitize porous and non-porous non-food contact surfaces such as walls, floors, tables, etc. Treated surfaces must remain wet for 60 seconds. At this dilution level, SANICLEEN 256 is an effective sanitizer against Staphylococcus aureus and Klebsiella pneumoniae on hard porous and non-porous inanimate surfaces.

MOLD and MILDEW CONTROL: At 1/2 oz. per gallon of water, SANICLEEN 256 inhibits the growth of mold and mildew and the odors caused by them, when applied to hard, non-porous surfaces (as indicated in general instructions above). Thoroughly wet surfaces, allow solution to dry on surfaces, and repeat when mildew growth returns.

VIRUCIDAL ACTIVITY: Used at 1/2 oz. per gallon of water, SANICLEEN 256 is effective against Influenza A/Brazil Virus on inanimate environmental surfaces.

AOAC FUNGICIDAL TEST: SANICLEEN 256 is effective against Trichophyton mentagrophytes (the athlete's foot fungus) when used on hard, non-porous surfaces in locker rooms, dressing rooms, shower and bath areas, exercise facilities, etc.

SANICLEEN 256 cleans and disinfects effectively when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-contamination from environmental surfaces.

Sanicleen 256 is economical to use - highly concentrated - and should be handled with care.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Keep out of reach of children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling the concentrate. Harmful or fatal if swallowed or absorbed through the skin. Avoid contamination of food.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

PESTICIDE DISPOSAL

PESTICIDE, SPRAY MIXTURE OR RINSATE THAT CANNOT BE USED OR CHEMICALLY REPROCESSED SHOULD BE DISPOSED OF IN A LANDFILL APPROVED FOR PESTICIDES OR BURIED IN A SAFE PLACE AWAY FROM WATER SUPPLIES.

CONTAINER DISPOSAL

TRIPLE RINSE (OR EQUIVALENT) AND DISPOSE IN AN INCINERATOR OR LANDFILL APPROVED FOR PESTICIDE CONTAINERS, OR BURY IN A SAFE PLACE.

GENERAL

CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

Statement of Practical Treatment

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (44-547) WASHINGTON, D.C. 20460	EPA REGISTRATION NO. 1239-42	DATE OF ISSUANCE 04 OCT 1987
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT Sanl Clean 256	
NAME AND ADDRESS OF REGISTRANT (include ZIP code)		
Industrial Chemical Laboratories Inc. 1015 North 14th Street Omaha, NE 68102		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:		
1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.		
2. Make the labeling changes listed below before you release the product for shipment:		
a. Add the phrase "EPA Registration No. 1239-42."		
b. For the label size submitted, the STORAGE AND DISPOSAL heading would require a 10 point type size minimum.		
We have noted that you will use the correct type size for the signal word "DANGER" and the "Keep out of reach of children" (front panel only) -- 14 points and 10 points, respectively.		
c. Delete the number 1239-DE from the label. This is <u>not</u> your registration number.		
d. Revise the statement (Sanitizing section - right panel):		
"...and nonporous inanimate surfaces..."

to read

"and nonporous inanimate environmental surfaces."

4. The confirmatory data submitted for the above-referenced product is acceptable and has been assigned the Accession Number 248274.

5. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
