

U.S. ENVIRONMENTAL PROTECTION AGENCY  
OFFICE OF PESTICIDES PROGRAMS  
REGISTRATION DIVISION (750-567)  
WASHINGTON, D.C. 20460

EPA REGISTRATION NO.  
1239-48

DATE OF ISSUANCE  
JUL 17 1985

TERM OF ISSUANCE

**NOTICE OF PESTICIDE:**  REGISTRATION  
 REREGISTRATION  
(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT  
Pine Scent 25

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Industrial Chemical Labs, Inc.  
1111 G. 14th St.  
Tampa, NE 68102

**NOTE:** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is being released in accordance with FIFRA sec. 3(d)(2) provided that you:

1. Submit any/extra data required for registration/reregistration of your product under FIFRA sec. 3(d)(5) when the Agency requires all registrants of similar products to submit such data.

2. Place the phrase "EPA Registered No. 1239-48" to your label before you release the product for shipment.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-29 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be canceled and the product treated with FIFRA sec. 3(e). Your release for sale of the product constitutes your agreement to these conditions.

For more information, see the enclosed form for registration.

FINISHED LABELING

Finished labeling is defined as the complete markings and text that appear on or accompany the product. Finished labeling must be legible and the graphic design must not be misleading.

Submitting Procedures.

- I. When screen printing or embossing is used to print labeling directly on the container (cans, bottles, boxes, etc.), do not submit the containers. Such labeling should be submitted after it is reproduced as follows:
  - A. Screen Printing. Request your printer to supply finished copies of the labeling on paper for convenient filing. Copies may be obtained by taping a piece of paper on the container as it goes through the printing process.
  - B. Embossing. Photo copy this labeling.
- II. When paste-on labeling is used, submit the actual labeling.
- III. When the labeling involves large containers such as cans or boxes, submit legible, photo-reduced copies indicating the fraction of the actual size. The actual cans or boxes are not acceptable and will be returned. If the photo-reducing process makes the labeling illegible, any one of the following methods for submitting finished labeling would be acceptable:
  - A. Photo-reduce the labeling to an acceptable size which would fit in a letter-size file folder,
  - B. Photo-reduce the labeling in sections, so that each sheet is approximately 8-1/2 by 11 inches, or
  - C. Photo-reduce the labeling to 8-1/2 by 11 inches, and submit the labeling text in typewritten form.
- IV. When the labeling is smaller than 40 square inches, copies should be attached to a sheet of paper (8-1/2 by 11 inches).

BEST AVAILABLE COPY

**Pine Scent 25** is formulated to clean and disinfect hard non-porous surfaces, reducing the hazard of cross-contamination, a major concern of housekeeping personnel in schools, institutions and industry.

When used as directed, Pine Scent 25 is effective against a broad spectrum of bacteria, is fungicidal and will inhibit the growth of mold and mildew and the odors caused by them.

Pine Scent 25 will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth may cause unpleasant odors.

Precautionary Statements

Hazards to Humans and Domestic Animals

DANGER

Keep out of reach of children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

STORAGE and DISPOSAL

STORAGE

Do not contaminate water, food or feed by storage or disposal. Store in original container. Keep containers closed when not in use. Do not contaminate or mix with other cleaning compounds.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

**PLASTIC:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**METAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flames.

**PINE SCENT 25**

**DISINFECTANT/CLEANER/FUNGICIDE/MILDEWICIDE**

For Schools, Industrial, Hotel and Motel

Active Ingredients

Octyl decyl dimethyl ammonium chloride  
Dioctyl dimethyl ammonium chloride  
Didecyl dimethyl ammonium chloride  
Alkyl (C<sub>14</sub> 50%; C<sub>12</sub> 40%; C<sub>16</sub> 10%)  
benzyl ammonium chloride  
Pine Oil

Inert Ingredients

KEEP OUT OF REACH OF CHILDREN

DANGER

Statement of Practical Treatment

In case of contact, immediately flush with large quantities of water for at least 15 minutes. For clothing, remove and wash contaminated clothing immediately.

If swallowed, drink promptly a large quantity of water, milk, whites, gelatin solution; or if these are not available, large quantities of water. Avoid alcohol. Seek medical attention immediately.

NOTE TO PHYSICIAN: Probable mucosal damage. Consider the use of gastric lavage. Measures against respiratory depression and convulsion.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PINE SCENT 25 is a proven 'one-step' cleaner, disinfectant, fungicide and mildewstat in the presence of organic soil.

Apply PINE SCENT 25 solution to walls, floors and other hard non-porous inanimate environmental surfaces such as tables, chairs, countertops, sinks and bed frames with a cloth, mop or mechanical spray device, thoroughly wetting the surfaces. Treated surfaces must remain wet for 10 minutes and allowed to air dry. Heavily soiled areas require preliminary cleaning to remove excess soil. Prepare fresh solution daily or when solution becomes visibly dirty.

DISINFECTING: Dilute PINE SCENT 25 at 2½ oz. per gallon of water used and apply as directed above. At 2½ oz. per gallon, PINE SCENT 25 has been evaluated and proven effective against these organisms for non-medical applications:

*Serratia marcescens*  
*Salmonella choleraesuis*  
*Streptococcus faecalis*

*Salmonella typhi*  
*Escherichia coli*  
*Enterobacter aerogenes*  
*Brevibacterium ammoniagenes*

*Staphylococcus aureus*  
*Streptococcus pyogenes*  
*Shigella dysenteriae*

PINE SCENT 25 has been evaluated and proven effective against *Staphylococcus aureus*, *Salmonella choleraesuis* and *Escherichia coli* in the presence of 5% blood serum (organic soil) and 400 ppm hard water at 5 oz. per gallon use dilution.

FUNGICIDAL CONTROL: At 2½ oz. per gallon use dilution, PINE SCENT 25 is effective in the presence of organic soil (5% blood serum) and 400 ppm hard water against *Trichophyton mentagrophytes* (the athlete's foot fungus). Apply to hard non-porous inanimate environmental surfaces in locker rooms, dressing rooms, shower and bath areas, and exercise facilities as directed above.

MOLD and MILDEW CONTROL: At 2½ oz. per gallon use dilution, PINE SCENT 25 will effectively inhibit growth of mold and mildew and the odors caused by them when applied to hard non-porous inanimate environmental surfaces as directed above. Allow to dry on surface and repeat application when mildew growth returns.
