**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION**

Avoid inhalation. Avoid contact with eyes. In case of eye contact, immediately flush eyes with plenty of water. Get medical attention if irritation persists. Avoid contamination of food or food processing surfaces. Containers larger than one pound may not be used in or stored in food handling establishments. Keep all aquariums covered during treatments.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

DISPOSAL

Do not reuse container. Destroy when empty.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

APPLICATIONS WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

Food processing plants and warehouses, bakeries, beverage plants, restaurants, supermarkets, meat and poultry processing plants, hotels, motels, hospitals and schools:

Limited to Crack and Crevice Treatment Only:

Using a bulbous duster apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall, voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where roaches, ants, silverfish, spiders and crickets hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED.

REALDRI

This product is a finely divided powder which combines the flushing and killing powers of pyrethrins and piperonyl butoxide with the dehydrative principle of thermally attrited hydrogel. It is relatively odorless and non-staining and may be used in accordance with directions in homes, restaurants, stores, hotels, offices, plants, warehouses, truck trailers and railroad cars. When used as directed, it is highly effective in controlling ants, cockroaches, silverfish, bed bugs, fleas, lice, ticks and dry wood termites.

ACTIVE INGREDIENTS:

Pyrethrins	1.0%
*Piperonyl Butoxide, Technical	10.0%
Amorphous Silica Gel	40.0%
Petroleum Distillate	49.0%
	100.0%

*Equivalent to 8.0% (butylcarbityl) (6-propylpiperonyl) ether and 2.0% related compounds.

KEEP OUT OF REACH OF CHILDREN.

CAUTION

See side panel for additional precautionary statements.

EPA REG. NO. 1251-
EPA EST. NO. 1251-IL-1

**HADCO CHEMICAL CORP.
WHEELING, ILLINOIS**

NON-FOOD AREA

Homes, institutions, theaters, schools, dining and crawling insects and fleas in animal quarters per 100 square feet of shelving, baseboard where insects may be cabinets and walls. per 1000 square feet

FLEAS:

Dogs and Cats: Liberally to the skin. Begin with and the base of the should be dusted a fested lawns, basen 16 ounces per 1000

BEEES AND WASP

Using conventional lb. per 1000 square

BED BUGS:

Take bed apart. Dust or round tubing, see tresses should be frame moldings and treated.

DRY WOOD TERMI

These termites are not be confused w operated rotary dust hole into the attic a tion is recommended All wood surfaces i ward side to be clo

SEWER TREATM

American and Orien be treated with app treating sewers, or Treatments are ma a disc of plywood b or truck-mounted troduced into the v through the system

NON-FOOD AREAS:

Homes, institutions, hospitals, office buildings, theaters, schools, truck trailers and railroad cars. For control of flying and crawling insect life as ants, cockroaches and fleas in animal quarters, distribute product per 100 square feet surface area. Treat on shelves, shelving, baseboards, pipe openings, cracks and crevices where insects may hide. For severe infestations, cabinets and walls, in crawl spaces and attics, apply per 1000 square feet of surface area. Repeat treatment as necessary.

FLEAS:

Dogs and Cats: Liberally apply powder to the skin. Begin with the neck and include the base of the tail. Repeat as necessary. Should be dusted at rate of one ounce per 1000 square feet of surface area. Repeat treatment as necessary.

BEEES AND WASPES:

Using conventional dusting equipment for 1 lb. per 1000 square feet. Repeat treatment as necessary.

BED BUGS:

Take bed apart. Dust into joints and channels of bed or round tubing, see that the interior of frames should be dusted, especially tufted frame moldings and all cracks and crevices should be treated.

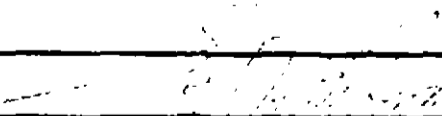

DRY WOOD TERMITES:

These termites are restricted to certain parts of the structure and should not be confused with Subterranean termites. Operated rotary duster to distribute product into the attic and the crawl space of the structure. Application is recommended at one (1) pound per 1000 square feet. All wood surfaces must be covered. All vent openings must be closed.

SEWER TREATMENTS:

American and Oriental cockroaches infesting sewers, be treated with approximately 6 ounces of product per 1000 square feet. Treatments are made by removing the manhole cover and placing a disc of plywood bored to receive the usual manhole cover on the manhole. The product is introduced into the ventilating air to be dispersed through the system.

	NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	TERM OF ISSUANCE Until Reregistration
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)		
Laddo Chemical Corp. 415 Harvester Ct. Wheeling, W. Va. 26060		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is registered in accordance with FIFRA Sec. 3(c)(7)(A) provided that you:		
1. Submit and/or create the data required for registration/reregistration of your product under FIFRA Sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.		
2. Make the labeling changes listed below before you release the product for shipment:		
a. Add the phrase "EPA Registration No."		
b. In the "HAZARDS TO HUMANS..." section add: "For prolonged or commercial exposure wear a dust mask or respirator. Wash hands after using and before eating or smoking."		
c. From "ENVIRONMENTAL HAZARDS, delete "Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated." as these precautions are inappropriate to an indoor use pattern.		
d. Change the heading "DISPOSAL" to "STORAGE AND DISPOSAL" and revise in accordance with the enclosure.		
e. Insert the following after the heading "APPLICATION WITHIN FOOD AREAS..."		
3. Submit five
