**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS &
DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed. Avoid contact with eyes, skin or clothing. Do not breathe spray mist. Wash thoroughly after handling. Avoid contamination of food, feed or domestic water supplies. The use of this product in food processing plants should be confined to the time periods when the plant is not in operation. Food should be removed or covered before treatment. Remove pets and cover fish bowls (tanks) before spraying. Do not allow children or pets to contact treated area until spray has dried.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Do not induce vomiting because of possible aspiration hazard. Call a physician.

If On Skin: Wash with soap and warm water.

If In Eyes: Flush with plenty of water. Get medical attention if irritation persists.

Note To Physician: Contains petroleum distillate. If gastric lavage is deemed necessary, undertake only after proper placement of a cuffed endotracheal tube. Active ingredients contain a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

Pesticide Disposal: Pesticide, spray mixture, or rinse water that cannot be used according to label directions must be disposed of according to applicable Federal, State or local procedures.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other approved State and local procedures.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

SERVING AREAS: Facilities where foods are served such as dining rooms, but excluding areas where foods may be prepared or held, apply as a spot treatment to selective surfaces, such as baseboards, under elements or construction and into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)

DIRECTIONS FOR HOUSEHOLD AND OUTDOOR USE IN NON-FOOD AREAS Including garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Apply to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter. Repeat treatment as required.

Brown Dog Ticks: Apply thoroughly as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these insects may be present. Fresh bedding should be placed in animal quarters following treatment. Do not spray pets with this product.

Flies and Mosquitoes: Use only on outdoor surfaces. Spray outside surfaces. Spray outside surfaces of windows and door frames and other areas where these pests may enter the home. Also spray dark corners and localized resting areas, such as under eaves, porches, partitions and in garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when effectiveness diminishes.

DIRECTIONS FOR FOOD HANDLING ESTABLISHMENTS (Places other than private residences in which exposed food is held, processed, prepared or served.)

FOOD AREAS-APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) and serving areas (when food is exposed and facility is in operation).

To control **cockroaches, ants, earwigs, waterbugs, silverfish, spiders, and crickets**, apply in small amounts directly into cracks and crevices using equipment capable of delivering a pin stream of insecticide, in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases, in conduits, motor housings, junction or switch boxes. Prior to application de-energize electrical equipment. After application allow time for oil to evaporate before starting motors or placing switches in "ON" position. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

This Insecticide Provides Flushing Action and Fast Knockdown

Controls Cockroaches, Ants, Silverfish, Spiders, Crickets, Earwigs and Brown Dog Ticks

Use in and Around Homes, Apartments, Garages, Similar Residential Structures, Institutions, Restaurants and Food Processing Plants

Use Outdoors As An Aid in Reducing Annoyance from Flies and Mosquitoes Entering the Home

MAY 7 1982

Mr. Walter R. Albers
Hadco Chemical Corp.
415 - Harvester Court
Wheeling, IL 60090

Dear Mr. Albers:

Subject: 1251-35 Aquaduol
1251-34 ARS Residual Oil
Your Letter Dated November 30, 1982

This is in response to your letter of November 30, 1982, requesting the following changes:

- a. THAT THE PRODUCT 1251-35 AQUADUOL'S NAME BE CHANGED TO READ LIQUI-CIDE # 20 CONCENTRATE RESIDUAL WATER OR OIL DILUTABLE INSECTICIDE.
- b. THAT THE PRODUCT 1251-34 ARS RESIDUAL OIL'S NAME BE CHANGED TO READ LIQUI-CIDE #10 READY-TO-USE RESIDUAL OIL-BASED INSECTICIDE.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

Sincerely yours,

Jay S. Ellenberger
Product Manager (12)
Insecticide-Rodenticide Branch
Registration Division (76-767)
