KEEP OUT OF REACH OF CHILDREN

STRONG OXIDIZER Mix only with water. Mixing or contaminating with other materials may result in fire. Read precautionary information on back panel.

EPA Reg. No. 128-132 AA 10507

DIRECTIONS FOR SWIMMING POOLS: For every 10,000 gallons of water, add 1 lb. of HTH Tablets to the pool. Add 1 lb. of HTH Tablets to the pool for every 10,000 gallons of water. When used as directed, HTH Tablets maintain a constant level of available chlorine in the pool water. The chlorine level in the pool water should be approximately 1.0 ppm.

INITIAL CHLORINATION: For initial chlorination of any pool, water, add 1 lb. of HTH Tablets to each 10,000 gallons of water. For the tablets to dissolve and the chlorine to be available, with a pool test kit, add 1 lb. of HTH Tablets to the pool and wait 24 hours before bathing. If a pool test kit is not available, wait 24 hours before bathing.

ROUTINE CHLORINATION DOSAGE: For every 10,000 gallons of water, add 1 lb. of HTH Tablets per 5.0 ppm of chlorine. If the chlorine level is below 1.0 ppm, add 1 lb. of HTH Tablets per 10,000 gallons of water. For best results, use a floating pool skimmer to remove debris from the pool. Add the tablets to the pool skimmer. The skimmer should be cleaned and the pool water should be changed frequently. The chlorine level should be maintained at 1.0 ppm.

STABILIZED POOLS: For pools treated with stabilizer, use 1 lb. of HTH Tablets per 10,000 gallons of water. The chlorine level should be maintained at 1.0 ppm. The stabilizer level should be maintained at 1.0 ppm.

SHOCK TREATMENT FOR ALGAE: For every 10,000 gallons of water, add 1 lb. of HTH Tablets to the pool. The chlorine level should be maintained at 1.0 ppm.

DANGER! HARMFUL OR FATAL IF SWALLOWED.

MAY PRODUCE SEVERE CHEMICAL BURNS. DO NOT ALLOW CONTACT WITH EYES, SKIN, MUCOUS MEMBRANES, OR CLOTHING. STRONG OXIDIZER: CONTACT OR MIXING WITH OTHER MATERIAL OR CHEMICALS MAY CAUSE FIRE OR EXPLOSION.

Keep from contact with clothing and other combustible materials. Do not store near combustible materials. Store in tightly closed containers. Remove and wash contaminated clothing promptly.

1. While HTH Tablets by themselves are not a combustible material, they must not be mixed or contaminated with any foreign material such as household products, Olin Pool Stabilizer, soap products, paint products, solvents, acids, pool chemicals, vinegar, garbage, beverages, oils, pine oil, dirty rags, etc. Contamination or mixing with these types of chemicals and products may result in fire or explosion and the fire can be of great intensity.

2. Prevent any burning material such as lighted cigarette from falling into any container of HTH Tablets.

3. If fire occurs, drench with water and cool the surrounding drums and area with water.

4. Use only a clean, dry metal cup to measure HTH Tablets. Any contamination or foreign matter on the cup may result in fire. Also, always use a clean, dry container to carry the HTH Tablets from this drum to the pool.

5. Keep in a cool, dry clean place in the original container. Always replace cover. Do not store in any other container.

6. Handle container with care. Do not drop, roll or skid. Keep upright.

7. Dispose of spilled HTH Tablets by flushing with large amounts of water. Dispose of any remaining HTH Tablets in drum by flushing small amount of HTH Tablets with plenty of water.

8. Do not reuse empty container. Wash empty container thoroughly with water. Discard clean empty container in a safe place.

FIRST AID: External—Flood skin or eyes with plenty of water for 15 minutes. If irritation to skin persists, get medical attention. For eyes—call physician immediately.

Internal—Drink milk, gelatin solution, or egg whites. Follow with milk of magnesia, vegetable oil or beaten eggs. Call physician immediately.

HOW TO DETERMINE POOL CAPACITY (In U.S. Gallons)

a) For RECTANGULAR or SQUARE POOLS: Multiply feet length x feet width x feet depth (average) x 7.5

b) For CIRCULAR POOLS of various diameters, gallons per foot of depth are as follows:

Diameter (feet)	22'	18'	15'	12'	9'
Gal. per ft. of depth	2850	1900	1320	850	480

c) For OVAL POOLS of various sizes 4 ft. deep.

Size	34' x 16'	31' x 16'	28' x 16'	25' x 16'	27' x 12'	24' x 12'	21' x 12'	18' x 12'
Total	13,150	11,760	10,300	8,700	7,600			

No warranty expressed or implied, is made except that the product conforms to the manufacturer's specifications and is reasonably fit for use as provided in the labeling furnished by the manufacturer. Buyer assumes all risk for use, storage and handling of this product not in strict accordance with such directions, or in abnormal, unforeseeable circumstances. Manufacturer shall not be responsible for special or consequential damages.
