HTH Duration Tablets

UN1748

**RQ Calcium
Hypochlorite
Mixture, Dry**

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

FOR USE IN SKIMMER ONLY.

1. Maintain a pH between 7.2-7.6. Adjust with HTH® pH Plus or HTH® pH Minus as necessary.
2. Shock treat on a routine basis with SOCK IT®. Follow label instructions.
3. Ensure that the skimmer basket is free of any other chemicals, tablets or residue prior to use. Place tablet(s) with plastic sleeve in empty skimmer basket. Do not remove plastic sleeve from the tablet(s).
4. As a starting point, use three (3) tablets per 10,000 gallons. For stabilized pools, use one (1) tablet as a starting point. Allow tablets to completely dissolve.
5. Using test kit, check free available chlorine residual daily. Increase or decrease the number of tablets as needed to maintain 1-3 ppm. Do not remove product from skimmer unless tablets are completely dissolved.
6. When tablets are dissolved, remove empty plastic sleeve(s) and replace with new HTH Duration® Tablet(s) as needed.

STORAGE AND DISPOSAL: Keep this product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage or disposal, or cleaning of equipment.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. When handling, wear rubber gloves and goggles or face shield and use only thoroughly clean, dry utensils. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

FIRST AID (Practical Treatment):

If on Skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention.

If Inhaled: Remove person to fresh air. Call a physician immediately.

If in Eyes: Flush with cold water for at least 15 minutes.

Call physician immediately.

If Swallowed: Drink large quantities of water. Do not induce vomiting.

Call a physician immediately.

CHEMICAL HAZARDS: DANGER: Strong oxidizing agent. Add only into water.

Contamination may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire and explosion. Avoid any contact with flame or burning material, such as a lighted cigarette. Do not contaminate with moisture, garbage, dirt, organic matter, chemicals, including other pool chemicals, pool chlorinating compounds, household products, cyanuric acid pool stabilizers, soap products, paint products, solvents, acids, vinegar, beverages, oils, pine oil, dirty rags or any other foreign matter.

ENVIRONMENTAL HAZARD: This product is toxic to fish. Do not contaminate lakes, ponds or streams by cleaning of equipment or disposal of wastes.

To Determine Pool Capacity in U.S. Gallons:

Rectangular - multiply length (ft.) x width (ft.) x average depth (ft.) x 7.5

Round - multiply diameter (ft.) x diameter (ft.) x average depth (ft.) x 5.9

Oval - multiply long diameter (ft.) x short diameter (ft.) x average depth (ft.) x 5.9
