Gentlemen:

Subject: Pace Concentrated Pool Chlorinating
Giant Tablets
EPA Registration No. 1258-922
Request to Clarify Use Directions to Comply
with PR Notice 84-1

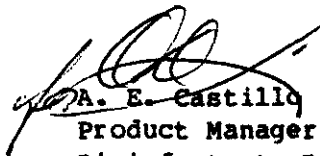

The amendment referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A) is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

A. E. Castillo
Product Manager (32)

Sun Protected®

ACCEPTED
with COMMENTS
in EPA Letter Dated:

MAY 9 1984

Under the Federal Insecticide,
Fungicide, and Fecidicide Act
as amended, for the pesticide
registered under EPA Reg. No.

1258-922

concentrated
pool chlorinating

giant
tablets
3 1/2" size

- Protects against bacteria and algae
- Stabilized (Sun Protected®) for extended chlorine life
- Slow dissolving
- Totally soluble

80 TABLETS
NET WT. 35 LBS. (15.9 kg.)

Active Ingredient:	
Trichloro-s-triazotriene	99%
Inert Ingredients	1%
Available Chlorine	89%

For use in s
add directly
only in skin
thoroughly
chemicals

Directions For Pool Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Pace® concentrated pool chlorinating Giant Tablets 3" size are designed to dissolve slowly (3 - 7 days) providing a steady source of available chlorine to control growth of algae and kill many harmful bacteria.

For Best Results: Use a floating dispenser or place Pace® Tablets in the skimmer. Do not permit tablets to contact plastic pool linings or metal objects. Do not throw tablets directly into pool. Run pump and filter until tablets are dissolved.

- Startup:
1. Adjust pH to 7.2 - 7.4 with Pace pH Plus® or Pace pH Minus™.
 2. Superchlorinate with "Pace® Super Chlorinator & Shock Treatment" to obtain a 1 - 3 ppm chlorine residual. Follow label directions.
 3. The next day stabilize your pool using Pace® Stabilizer & Conditioner. Follow label directions.

Routine Care: Add one 7 ounce Pace® Giant Tablet 3" size for each 10,000 gallons of water every week, or as needed, to maintain chlorine residual 1 - 3 ppm. Run pump and filter until tablets are dissolved. Maintain pH between 7.2 - 7.6, total alkalinity 90 - 125 ppm and calcium hardness above 200 ppm. Test with a reliable test kit. Make necessary adjustments with the appropriate pool care product(s). Superchlorinate weekly with "Pace® Super Chlorinator & Shock Treatment" to burn out organic material and to keep water sparkling clear.

In Case of: Algae, colored water, unpleasant odors, burning eyes, excess bather load, heavy rains and winds, or high temperatures, treat your pool using "Pace® Super Chlorinator & Shock Treatment." Follow label directions. An alternate method is to add 2 Pace® Giant Tablets 3" size in the skimmer for each 10,000 gallons of water. Run pump and filter until tablets are dissolved. If algae are visible scrub pool surfaces and vacuum. Repeat treatment the following day if necessary. Do not enter pool until chlorine residual is 1 - 3 ppm.

To determine pool capacity in US gallons:

Rectangular - multiply length (ft.) x width (ft.) x average depth (ft.) x 7.5

Round - multiply diameter (ft.) x diameter (ft.) x average depth (ft.) x 5.9

Oval - multiply long diameter (ft.) x short diameter (ft.) x average depth (ft.) x 5.9

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. ~~Place in trash collection and disposal area.~~ ~~Dispose of contaminated material in an approved landfill area or bury in a safe place.~~ **EMERGENCY HANDLING:** In case of contamination or decomposition, do not reseal container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area or bury in a safe place.

Securely wrap container in several layers of newspaper and discard in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves ^{and} only thoroughly clean, dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

FIRST AID (PRACTICAL TREATMENT)

If swallowed: Feed large amounts of milk and/or water and induce vomiting. Call a physician immediately.

If on Skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If in Eyes: Flush with cold water for at least 15 minutes. Get immediate medical attention.

If Inhaled: Remove person to fresh air. Get immediate medical attention.

CHEMICAL HAZARDS

DANGER: Strong oxidizing agent. Use only clean, dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use PACE Tablets in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion. Do not permit tablets to contact plastic pool linings or metal objects. Do not throw tablets directly into pool.

ENVIRONMENTAL HAZARD:

This product is toxic to fish. Do not contaminate lakes, ponds or streams by cleaning of equipment or disposal of wastes.
