

CALCIUM HYPOCHLORITE SANITIZER

Active Ingredient
Calcium Hypochlorite*..... 50%
Inert Ingredients.....50%

*AVAILABLE CHLORINE 50%

DANGER!

KEEP OUT OF THE REACH OF CHILDREN

May be fatal or harmful if swallowed. May produce severe chemical burns. Do not breathe dust or spray mist solutions. Do not allow contact with eyes, skin, mucous membranes, or clothing. Strong Oxidizer. Contact with other material may cause fire. Keep from contact with clothing and other combustible materials. Do not store near combustible materials. Store in tightly closed containers. Remove and wash contaminated clothing promptly. While calcium hypochlorite by itself is not a combustible material, it must not be mixed or contaminated with any foreign materials such as, household products, soap products, paint products, garbage, solvents, acids, pool chemicals, vinegar, beverages, oils, pine oil, dirty rags, etc. Contamination or mixing with these types of chemicals and products may result in fire and the fire can be of great intensity. Prevent any burning material such as a lighted cigarette from falling into product. Drench fires with water. Flush spilled product with water. Dispose of spilled product by flushing with large amounts of water. Keep in cool, dry place in original container. When measuring, use only a clean, plastic or enamel spoon. Do not reuse empty container. Wash empty container thoroughly with water and discard.

FIRST AID: External — flood skin or eyes with plenty of water for 15 minutes. If irritation to skin persists, get medical attention. For eyes — call physician immediately. Internal — drink large quantities of water or milk. Follow with milk of magnesia, vegetable oil, or beaten eggs. Call physician immediately.

Directions for sanitizing glasses, dishes, mugs, and other food utensils in hotels and motels.

1. Scrape and prewash utensils and glasses.
2. Wash with a good detergent or compatible cleaner.
3. Rinse with clean water.
4. Sanitize in a solution (1 teaspoon of Olin calcium hypochlorite sanitizer to 2 gals. of water.) (Approximately 200 ppm.) Immerse all utensils for at least two minutes.
5. Place sanitized utensils on a rack drainboard to air dry.

NOTE: All ppm on the label represent ppm available chlorine.

NET WT. 25LBS.
