The PACES 14 pay Super Tab will provide an effective chlorine residual of 1.0-3ppm in 20,000 gallons of water for 2 weeks under normal, use conditions. Its convenient disposal container means you never have to touch the chlorinating tablet.

USE ONLY IN SKIMMERS

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

DIRECTIONS FOR POOL USE

- 1. Adjust pH to the ideal range of 7.2-7.6
- 2. Bring chlorine residual to 1.0-3ppm using PACE® Superchlorinator and Shock Treatment. Follow Label Directions.
- Stabilize the pool with cyanuric acid (e.g. PACE[®] Stabilizer and Conditioner). Follow label instructions.

Remove lid and set in skimmer basket. If chlorine residual goes above 3ppm, reduce the daily pump operating time. If chlorine residual goes below 1ppm, increase the daily pump operating time. Superchlorinate weekly or every other week with PACES Superchlorinator and Snock Treatment following label directions. Do not enter pool until pool FAC drops to 3ppm or below. When the container is empty, remove it from the pool skimmer, pour any liquid in the feeder into the pool skimmer and replace with a new PACES 14 Day Super Tab.

STORAGE AND DISPOSAL: Keep product in original container. Store in a cool, dry, well-ventilated area away from heat or open flame. Do not reuse container. Triple rinse empty container thoroughly by immersing in pool water. Drain and then securely wrap original container in several layers of newspaper and discard in trash.

EMERGENCY HANDLING: In case of contamination or decomposition do not reuse container. It possible, isolate container in open well-ventilated area. Flood with large volumes of mater. Dispose of contaminated material in an approved landfill area or bury in safe place.

BEST DOCHMENT AVAILABLE
