Gentlemen:

Subject. HTH[®]Duration[™] Adjustable Chlorinating
Capsule[™]
EPA Registration No. 1258-1070
Pace[®] 14 Day Super Tab Concentrated
Pool Chlorinator
EPA Registration No. 1258-995
Submissions of August 1, 1984

The amendment referred to above, submitted in connection with registration under FIFRA, is acceptable provided that you

1. Submit five copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If this condition is not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(c). Your release for shipment of the product bearing the amended labeling constitutes acceptance of this condition.

A stamped copy of the labeling is enclosed for your records.

Sincerely,

A. F. Castillo
Product Manager #32
Disinfectants Branch
Registration Division (TS-767c)

**Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.**

1258-995

Each PACE® 14 Day Super Tab will provide an effective chlorine residual of 1.1 parts per million (ppm) in 20,000 gallons of water for 2 weeks under normal use conditions. The convenient disposable container means you never have to touch the chlorine tablets.

USE ONLY IN SKIMMERS

This is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR POOL USE

1. Adjust pH to the ideal range of 7.2 - 7.6.
2. Bring chlorine residual to 1.1 ppm using PACE® Superchlorinator and Shock Treatment. Follow Label Directions and do not mix with any other pool products.
3. Stabilize the pool with cyanuric acid (e.g. PACE® Stabilizer and Conditioner). Follow label instructions.
4. Remove lid and scavenger from inside the tub. Then place the tub in skimmer basket. If chlorine residual goes above 3 ppm, reduce daily pump operating time. Chlorine residual 4.0 ppm or below 1 ppm increases daily pump operating time. Superchlorinate weekly or every other week with PACE® Superchlorinator and Shock Treatment. Follow label directions. Do not enter pool until pool is free Available Chlorine (FAC) drops to 3 ppm or below. When the container is empty, remove it from the pool's skimmer, pour it up into the tub, into the pool's skimmer and replace with a new PACE® 14 Day Super Tab. Do not reuse container. Remove Super Tab from skimmer when adding other chemicals to the skimmer. Replace Super Tab upon completion of additions. **DO NOT MIX WITH OTHER POOL CHEMICALS.**

STORAGE AND DISPOSAL: Keep product in original container. Store in a cool, dry, well-ventilated area away from heat or open flame. Do not reuse container. To properly empty container, thoroughly by immersing in pool water. Drain and then securely wrap original container in several layers of newspaper and discard in trash.

EMERGENCY HANDLING: In case of contamination or decomposition, do not reuse container. If possible, isolate container in open well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area or bury in a safe place.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly Corrosive. Causes skin and eye damage. May be fatal if swallowed. Avoid breathing dust or fumes. Do not handle chlorinating products without wearing rubber gloves and goggles.

FIRST AID (PRACTICAL TREATMENT)

IF SWALLOWED: Feed large amounts of milk or water and induce vomiting.

IF ON SKIN: Rinse off exposed chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

IF IN EYES: Flush with cold water for at least 15 minutes. Get immediate medical attention.

IF INHALED: Remove person to fresh air. Get immediate medical attention.

CHEMICAL HAZARDS

DANGER: Strong oxidizing agent. Contamination with any other substance may start a chemical reaction which may result in liberation of hazardous gases and possible generation of toxic vapors. Avoid any contact with flammable burning material.

ENVIRONMENTAL HAZARD

This product may be fatal if inhaled, ingested, or absorbed through the skin.
