Mr. Garrett B. Schifilliti
 Arch Chemicals, Inc.
 501 Merritt 7
 Norwalk, CT 06856

Subject: Pace 14-Day Super Tabs Concentrated Pool Chlorinator
 EPA Registration Number 1258-995
 Application Date: August 7, 2002
 Receipt Date: August 8, 2002

Dear Mr. Schifilliti:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions given below:

1. Update the "first aid" statement per PR Notice 2001-1
2. Addition of marketing claims
3. Change the heading "inert" to "other"
4. The following changes in Swimming Pool directions for use
 - a. add header "Why you should use this product"
 - b. change wording in "directions for use"
 - c. raise reentry level for available chlorine to 4 ppm
 - d. change alkalinity range to 60-120 ppm and calcium hardness above 200 ppm
5. Addition of "Emergency Handling" section
6. Change in the "Storage and Disposal" section
7. Change in the "Chemical Hazards" section
8. Change in the "Hazards to Human and Domestic Animals" section

Conditions

- Place the "First Aid" Statement on the front panel of the label.

{MARKETING CLAIMS}

{Statements available to all labels}

[90% Available chlorine]

[Concentrated chlorinator]

[Kills bacteria, destroys organic contaminants and controls algae]

[Kills algae]

[Individually wrapped for easy handling]

[Slow dissolving]

[Plastic wrap controls dissolve rate]

[One dose lasts up to 2 weeks]

[Tablets last up to 14 days]

[Chlorinates up to 2 weeks]

[Convenient 2-week dosage]

[Innovative, patented technology]

{Optional statements for use only with swimming pool sanitization directions}

[For routine use in plastic skimmers]

[For routine use in automatic feeders]

[For routine use in floaters]

[Sanitizes pool water]

[Swimming pool sanitizer]

[Sun resistant for extended chlorine life]

[Sun protected for extended chlorine life]

[One tablet treats 20,000 gallons]

[Good for all pool surfaces]

PRECAUTIONARY STATEMENTS - HAZARDS TO HUMANS AND DOMESTIC

ANIMALS – DANGER: Corrosive. Causes irreversible eye damage and skin burns.

May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

FIRST AID: {Format consistent with PR Notice 2001-1}

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-654-6911.

CHEMICAL HAZARDS: DANGER. Strong oxidizing agent. Add only into water. Use only clean dry utensils to dispense this product. Do not use this product in a container or dispensing device that has been used with any other product. Keep all foreign matter, including other pool treatment products, away from this product. Do not allow to become wet or damp before use. Contamination may start a chemical reaction that can give off heat and hazardous gases and may cause a fire or explosion. Do not touch this chemical with a flame or burning material (like a lighted cigarette).

{Environmental hazards statement for end-use products in containers less than 5 gallons (liquid) or less than 50 pounds (solid, dry weight)}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

{Environmental hazards statement for end-use products in containers \geq 5 gallons (liquid) or \leq 50 pounds (solid, dry weight)}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material and discard container in trash. For disposal of a contaminated or decomposing product, see Emergency Handling.

EMERGENCY HANDLING: In case of contamination or decomposition – Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

{Use 1}[[Swimming Pools]

Why You Should Use This Product: {HTH® Pace Plus 2 Week Cleaning Tablets} [(HTH Poolife Marathon Cleaning Tablets)] (brand name) are super sized for extended cleaning power. These convenient and easy to use tablets are formulated to protect against chlorine loss in direct sunlight and are used in skimmers baskets. They are designed to dissolve slowly providing a steady source of available chlorine (up to 2 weeks) for complete swimming enjoyment in your pool. For crystal clear pool water, follow our 4 step pool care program: Step 1: Test and adjust pool water balance, Step

2: Chlorinate and clarify, Step 3: Shock treat your pool at least once a week, and Step 4: Add algacide regularly.

Always use [HTH/HTHPOOLIFE Shock] (brand name) products for regular shock treatment.

Additional shocking to keep water clean and clear is recommended after: rain and heavy winds; high number of swimmers; increased water temperature; and/or increased frequency of pool usage.]

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE

[This product is designed to dissolve slowly, providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants. Reentry into treated swimming pool is prohibited above levels of 4 ppm of chlorine.

One tablet will provide an effective chlorine residual of 1-4 parts per million (ppm) in 20,000 gallons of water for up to 2 weeks under normal use conditions. The wrapped tablet means you never have to touch the chlorinating chemical.

USE ONLY IN SKIMMERS

1. To provide optimum product performance, swimmer comfort and crystal clear water, always maintain pH from 7.2 to 7.6, total alkalinity from 60 to 120 parts per million (ppm) and calcium hardness above 200 ppm. Test frequently using a reliable test kit that measures all of the above ranges. Adjust with appropriate product.
2. Bring chlorine residual to 1-4 ppm using appropriate shock product. Follow label instructions.
3. Stabilize the pool with appropriate product. Follow label directions.
4. Ensure that the skimmer basket is free of any other chemicals, tablets, or residue prior to use. Place this product in the skimmer basket. This product is not recommended for use in vinyl-lined pools without an automatic timer on the pool pump. Pump should run a minimum of 8 hours per day, otherwise vinyl liner damage may occur. If chlorine residual goes above 4 ppm, reduce skimmer flow rate or daily pump operation time. If chlorine residual goes below 1 ppm, increase skimmer flow rate or daily pump operation time. Shock treat weekly or every other week with appropriate product following label directions. Do not enter the pool until the free available chlorine (FAC) drops to 4 ppm or below. When the plastic sleeve is empty remove it from the pool skimmer, and replace it with a new tablet.
5. Do not add other chemicals to the skimmer while this product is in the skimmer. Do not mix pool chemicals.

[For best results [during the season], follow [our] [the [HTH (HTH Poolife)] (brand name)] 4 step pool care program.]
