Subject: HTH Duration Clean Capsules
EPA Registration No. 1258-1259
Application Date: July 3, 2003
Receipt Date: July 7, 2003

Dear Mr. Camara:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

Proposed Notification

- addition of alternate brand name "HTH Duration Chlorinating Capsules Chlorinator"

General Comments

Based on a review of the material submitted, the following comments apply:

The notification application is acceptable and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6345.

Sincerely,

Wanda Mitchell
Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510C)

HTH® DURATION CHLORINATING CAPSULES CHLORINATOR

Kills bacteria
Destroys organic contaminants,
Restores a Crystal Clarity to Pool Water

KEEP OUT OF REACH OF CHILDREN

DANGER

CONTAMINATION OR IMPROPER USE MAY CAUSE FIRE OR EXPLOSION. DO NOT CONTAMINATE WITH ANY FOREIGN MATTER, INCLUDING OTHER SPA OR POOL TREATMENT PRODUCTS. ADD ONLY INTO WATER. READ ALL PRECAUTIONARY STATEMENTS ON BACK LABEL AND ALL FIRST AID STATEMENTS BEFORE USE.

ACTIVE INGREDIENT:

CALCIUM HYPOCHLORITE.....47.6%

OTHER INGREDIENTS.....52.4%

TOTAL.....100%

Minimum Available Chlorine...45%

FIRST AID:

- If in eyes:**
 - Hold eye open and rinse slowly and gently with water for 15-20 minutes.
 - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
 - Call a poison control center or doctor for treatment advice.
- If on skin or clothing:** Take off contaminated clothing.
 - Rinse skin immediately with plenty of water for 15-20 minutes.
 - Call a poison control center or doctor for treatment advice.
- If swallowed:**
 - Call a poison control center or doctor immediately for treatment advice.
 - Have person sip a glass of water if able to swallow.
 - Do not induce vomiting unless told to do so by a poison control center or doctor.
 - Do not give anything by mouth to an unconscious person.
- If inhaled:**
 - Remove person to fresh air.
 - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
 - Call a poison control center or doctor for further treatment advice.

Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

Net Wt. 5 Lb (2.27 Kg)

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

DO NOT use this product with any other chlorinating compound. DO NOT place in skimmer baskets that contain undissolved material or residue from previously used tablets or sticks. DO NOT use this product in any floater or feeder which has previously contained other chemicals.

WHY YOU SHOULD USE THIS PRODUCT

HTH Duration Chlorinating Capsules are a slow dissolving product that is easy and convenient to use. This product controls algae, kills bacteria and destroys organic contaminants. These capsules are designed to be used in the skimmer basket and dissolve slowly (up to 1 week) providing a steady source of available chlorine for complete swimming enjoyment in your pool. For crystal clear pool water, follow our 4 step pool care program: Step 1: Test and adjust pool water balance, Step 2: Chlorinate and clarify, Step 3: Shock treat your pool at least once a week, and Step 4: Add algaecide regularly.

Additional shocking to keep water clean and clear is recommended after: rain and heavy winds; high number of swimmers; increased water temperature; increased frequency of pool usage.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO USE:

One capsule weighs approximately 9.5-10 ounces. Use in the skimmer. Remove any other chemical or chemical residue from skimmer basket before adding recommended amount of this product. Failure to do so could result in a chemical reaction or possible explosion. Place capsule(s) in the empty skimmer basket. Replace with a new capsule(s) as needed.

WATER BALANCE: For best product performance, swimmer comfort and crystal clear water:

- Maintain pH in the range of 7.2-7.6.
- Maintain total alkalinity in the range of 60-100 parts per million (ppm).
- Maintain calcium hardness above 200 ppm.

Use a reliable test kit that measures all these ranges. Use HTH pool care products to make adjustments. Follow label directions for each product.

OPENING YOUR POOL: For best results, see the Water Balance section above before treatment. Always adjust and maintain pH in the 7.2 to 7.6 range. Follow "SHOCK TREATMENT" directions on this package. Allow 30 minutes for product to disperse. Test free available chlorine residual with a pool test kit. DO NOT enter pool until the free available chlorine residual is 1-4 ppm. Repeat treatment as needed.

For best results during the pool season, follow the HTH 4 Step Program.

ROUTINE CHLORINATION: For best results, see the Water Balance section above before treatment. Throughout the pool season, adjust pH to 7.2-7.6. Begin by using 3 capsules of this product per 7,000 gallons of pool water. If you stabilize your pool using HTH Stabilizer and Conditioner, begin by using 1 capsule of this product per 7,000 gallons of pool water. After one day, use a suitable test kit to check free available chlorine residual. Increase or decrease the number of capsules to maintain a free available chlorine residual of 1-4 ppm. DO NOT remove product from skimmer until completely dissolved. Follow "HOW TO USE" directions on this package.

FOR FLOATER/FEEDER USE:

Use only in a new floater/feeder or a floater/feeder that has previously contained only this product. Place the required number of capsules in the chamber.

If the floater/feeder is equipped with adjustable chamber, set the openings to allow maximum water flow past the tablets.

Test water and maintain 1 to 4 ppm free available chlorine residual.

When the capsules are completely dissolved, replace with new capsules as needed.

SHOCK TREATMENT:

For best results, see Water Balance section above before treatment.

1. Adjust and maintain pH to 7.2-7.6 with HTH[®] pH Plus[®] or HTH[®] pH Minus. Follow label directions on that product. Allow product to disperse before proceeding.

7 7 7

2. Shock treat using HTH Sock It, Super Sock It, Sock It Shock n' Swim or Super Sock It Shock n' Swim shock products. Follow label directions on those products.
3. DO NOT enter pool until the free available chlorine residual is 1-4 parts per million (ppm).

For preventative algae control, use your preferred HTH algaecide product regularly.

STORAGE & DISPOSAL

- Keep this product dry in its tightly closed container when not in use.
- Store in a cool, dry well-ventilated area.
- Keep away from heat or open flame.
- Do not reuse empty container.
- Rinse empty container thoroughly with water to dissolve all material and discard container in trash.
- Do not contaminate water, food or feed by storage or disposal or cleaning of equipment.
- For disposal of a contaminated or decomposing product, see Emergency Handling.

PRECAUTIONARY STATEMENTS - HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER. Corrosive. Causes irreversible eye damage or skin burns. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles or face shield. Wear protective clothing and rubber gloves. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

HEALTH HAZARDS: DANGER. Strong oxidizing agent. Add only into water. Use only clean dry utensils to dispense this product. Do not use this product in a container or dispensing device that has been used with any other product. Keep all foreign matter, including other spa or pool treatment products, away from this product. Do not allow to become wet or damp before use. Contamination may start a chemical reaction that can give off heat and hazardous gases and may cause a fire or explosion. Do not touch this chemical with a flame or burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms.

EMERGENCY HANDLING: In case of contamination or decomposition:

1. Do not reseal container.
2. Place the container in an open and well ventilated area by itself.
3. Flood with large amounts of water until the material is dissolved.
4. Dispose of container and any remaining material in an approved landfill area.
