**PACE Concentrated Algaecide** is a granular product effective against algae.

**Directions for Pool Use**

- Mix a small amount of product in a bucket in accordance with its labeling.
- Using a suitable test kit, adjust if necessary, the pH of the pool water to 7.2-7.6.
- Turn off the filter pump before beginning application.
- Do not use pool while it is being treated.
- Sprinkle PACE<sup>®</sup> algaecide directly over those areas where algae appears. Use up to 1 lb. per 10,000 gallons (12 ppm) of pool water. For severe cases, the dosage may be doubled.
- The filter pump can be turned on after PACE<sup>®</sup> algaecide has been in the pool for at least 8 hours.
- Brush pool and vacuum.
- Repeat the above treatment if necessary.
- Do not use the pool until the chlorine residual has dropped to 3 ppm or less as determined by a suitable test kit.
- Adjust the pH to 7.2-7.6.
- Maintain the chlorine residual at 1.0-1.5 ppm.

**Note:** Use only on white plaster pool surfaces. If used on any other color or surface, bleaching or damage to the pool may occur.

**To Determine Pool Capacity - Rectangular Pools:**  
 Multiply length x width x average depth x 7.5 = pool capacity (U.S. gallons)

**Round Pools -** Multiply radius (1/2 diameter) x radius x average depth x 23.5 = pool capacity (U.S. gallons)

**Precautionary Statements**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves. Rinse thoroughly with water. Irritation to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

**FIRST AID (Practical Treatment):** If Swallowed: Feed large amounts of milk and/or water and induce vomiting. Call a physician immediately. If on Skin: Brush off excess chemical and flush with cold water for at least 15 minutes. Get immediate medical attention. If Inhaled: Remove person to fresh air. Get immediate medical attention.

**CHEMICAL HAZARDS**

**DANGER:** Strong oxidizing agent. Use only clean, dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter, or other chemicals (including other pool chemicals) or any foreign matter may start a chemical reaction with generation of fire and explosion. Avoid any contact with flammable or burning material, such as a lighted cigarette.

**ADDITIONAL POOL CARE RECOMMENDATIONS:** pH - Maintaining pH in the ideal range of 7.2-7.6 is extremely important to the efficacy of your chlorine and swimming comfort. Test for pH often with a suitable test kit. Adjust pH as necessary, using products such as "PACE pH Minus" or "PACE pH Plus."

**STORAGE AND DISPOSAL:** Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area or bury in a safe place. **EMERGENCY HANDLING:** In case of contamination or decomposition, do not re-seal container in open and wet-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area or bury in a safe place.

ACCEPTED with COMMENTS in EPA Letter Dated:

OCT 3 1983

Concentrated Algaecide

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

1258-1075

Active Ingredient Trichloro-s-Triazinethione	90%
Inert Ingredients	10%
Available Chlorine	89%

KEEP OUT OF REACH OF CHILDREN  
**DANGER!**

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DANGER

ALKALINE SOLUTION  
MAY CAUSE BURNS  
CAUSES EYE AND SKIN DAMAGE  
DANGEROUS IF SWALLOWED  
CONTACT WITH ACIDS MAY RELEASE TOXIC GAS  
STRONG OXIDIZER  
CONTACT WITH ORGANIC MATERIAL MAY CAUSE FIRE

INDUSTRIAL AND MUNICIPAL WATER TREATMENT

For use in the generation of chlorine dioxide for the disinfection of industrial recirculating cooling waters, retort and spray wash waters, and municipal potable water supplies.

FEED REQUIREMENTS

Feed rates of H-3130M Municipal Water Treatment will depend on the severity of contamination and the degree of control desired. Generally, 0.25 to 1.5 ppm of chlorine dioxide is required. The exact dosage will depend on the size of the system and residual necessary for effective control. Approximately one pound of chlorine dioxide is generated from 1.7 pounds of chlorine and 5.36 pounds of H-3130M Municipal Water Treatment. Your Calgon representative can guide you in the application techniques.

Do not get in eyes, on skin, or on clothing. Keep from contact with clothing and other combustible materials. Keep from contact with acids. Do not breathe vapor or fumes. If spilled, flush spillage to drain with large quantities of water. Wear goggles or face shield, neoprene gloves only, and protective clothing when handling. Wash thoroughly after handling.

ACTIVE INGREDIENT:  
Sodium Chlorite ... 25.04%  
INERT INGREDIENTS: .. 74.96%

EPA Establishment No. 10445-CA-01  
EPA Establishment No. 10445-TX-01  
EPA Establishment No. 10445-MD-01

For information regarding incidents involving human and environmental exposure, call (412) 777-8000 and ask for the Regulatory and Trade Affairs Department

METHOD OF FEED

Chlorine dioxide is generated from H-3130M Municipal Water Treatment and chlorine. A Calgon Chlorine Dioxide Chemical Feed System is recommended to control feed cycles, feed rates of chlorine, and the amount of H-3130M Municipal Water Treatment needed to produce chlorine dioxide. Your Calgon representative can guide you in the selection, installation, and operation of the feed system.

FIRST AID

YES: In case of contact, flush with plenty of water for at least 15 minutes. Call a physician.  
EYES: In case of contact, flush with plenty of water for at least 15 minutes while removing contaminated clothing. If irritation develops, call a physician. Promptly wash contaminated clothing.  
INTERNAL: If swallowed, drink one or two glasses of milk or water. Follow with milk of magnesia, vegetable oil or beaten eggs. Call a physician immediately.

APR 3 1985  
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, this pesticide is registered under EPA Reg. No.

SODIUM CHLORITE SOLUTION  
UN 1800

Do not reuse empty drum for other purposes. Liquid and solid residues are hazardous.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewer treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such and/or handling is contrary to the label instruction.

STORAGE AND DISPOSAL

Prohibitions - Do not contaminate water, food or feed by storage or disposal.

Pesticide Disposal - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Tank Cleaning - Transport tanks and equipment should be thoroughly drained and flushed with water to properly remove all traces of product. Dispose of washings as indicated above under Pesticide Disposal. Liquid and solid residues are hazardous.

IMPORTANT: Consult product bulletin and also the instructions on the chlorine dioxide generation system before using H-3130M Municipal Water Treatment.
