Subject: Label Amendment – Registration Review Interim Decision Risk Mitigation  
Product Name: HTH Non Foaming Algaecide 30  
EPA Registration Number: 1258-1078  
Received Date: 11-19-2021  
Decision Number: 580256

Dear Joanna Holcombe:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the *Polixetonium Chloride Interim Decision*, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Peter Bergquist by phone at 202-566-0648, or via email at [bergquist.peter@epa.gov](mailto:bergquist.peter@epa.gov).

Sincerely,

Eric Miederhoff, Branch Chief  
Reevaluation Branch  
Antimicrobials Division (7510P)  
Office of Pesticide Programs

WILMINGTON, DE 19803

**FIRST AID:**

**IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**IN CASE OF EMERGENCY CALL: 1-800-654-6911**

**PRECAUTIONARY STATEMENTS[:][ – ]****HAZARDS TO HUMANS AND DOMESTIC ANIMALS[ – ]**

**CAUTION:** Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

**ENVIRONMENTAL HAZARDS:**

This product is toxic to fish, aquatic invertebrates, and clams.

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  
READ THE PRECAUTIONARY STATEMENTS BEFORE USE.

Wear rubber gloves when using this product. Suggested glove types include butyl and nitrile.

This product is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, decorative fountains and [synthetically lined] ponds that do not contain fish. For maximum effectiveness pools, spas, whirlpools, hot tubs, decorative fountains and [synthetically lined] ponds containing heavy growth of algae must be cleaned prior to using this product.

For pools having just visible algae growth add an initial dose of 24 to 36 [fluid ounces][fl. oz.] of this product per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 13 to 24 [fluid ounces][fl. oz.] of this product per 10,000 gallons of water.

Subsequent additions of 4 to 9 fluid ounces of this product per 10,000 gallons of water must be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 2 to 4 [fluid ounces][fl. oz.] of this product per 1,000 gallons of water. For treatment of freshly cleaned and filled spa, whirlpool, hot tub, decorative fountain or [synthetically lined] pond, add initially 1 to 2 fluid ounces per 1,000 gallons of water. Subsequent addition of 0.5 to 0.8 [fluid ounces][fl. oz.] of this product must be made every 5 to 7 days after initial treatment for maintenance.

This product will prevent the growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 13 to 21 [fluid ounces][fl. oz.] of this product per 10,000 gallons of water. If at the end of the swimming season pools have some visible algae growth, add 25 to 37 [fluid ounces][fl. oz.] of this product per 10,000 gallons of water. It is necessary that a uniform distribution of this product be made throughout the water for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

This product may be used in the same pool treatment program as most chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. This product can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with other materials, including concentrated dry or liquid chlorine products.

Before draining a treated [pool], [spa], [hot tub], or [fountain], contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated [pool], [spa], [hot tub], or [fountain] water to any location that flows to a gutter or storm drain or natural water body unless discharge is allowed by state and local authorities.

*{Note to reviewer – which paragraph will appear on the container label depends on whether refillable or nonrefillable containers are used and whether product is packaged for household/residential use only or not}*

## **STORAGE AND DISPOSAL:**

*{Nonrefillable container - household/residential use}*

[Keep this product in its tightly closed container when not in use. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.]

*{Refillable container – household/residential use}*

[Keep this product in its tightly closed container when not in use. Do not contaminate food or feed by storage or disposal or cleaning of equipment. Refillable container. Refill this container with Poly[oxyethylene(dimethyliminio)ethylene(dimethyliminio)ethylene dichloride] only. Do not use this container for any other purpose. Rinse empty container thoroughly with water prior to disposal.]

*{Nonrefillable container - non-household/residential use}*

Do not contaminate food or feed by storage or disposal.

**Pesticide Storage:** Keep this product in its tightly closed container when not in use. Store in original container in an area inaccessible to children.

**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility. Open dumping is prohibited.

**Container Handling:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or dispose in trash or sanitary landfill.

*{Refillable container – non-household/residential use}*

[Keep this product in its tightly closed container when not in use. Do not contaminate food or feed by storage or disposal or cleaning of equipment. Refillable container. Refill this container with Poly[oxyethylene(dimethyliminio)ethylene(dimethyliminio)ethylene dichloride] only. Do not use this container for any other purpose. Cleaning of this container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. Rinse empty container thoroughly with water prior to disposal.]

**{Steps}**

**WHY YOU SHOULD USE THIS PRODUCT**

This product when used regularly, will kill and control the growth of green algae for complete pool enjoyment.

For best results, use with other [HTH®][brand name] pool care products. For crystal clear pool water, follow our 4 step pool care program.

Step 1: [Test and] balance [water.]

Step 2: Sanitize – use a registered EPA product for pool sanitizing.

Step 3: Shock -- Use a product for xxxxxxxx.

Step 4: Add algaecide as directed.

Step 3

**{Optional statement for dealer direct brands}**

For best results follow a weekly [brand] 3-Step System. Consult with your authorized [brand] dealer for advice on the system that best suits your pool and your lifestyle.

Step 1. Sanitize

Step 2. Shock

Step 3. Prevent Algae
