Subject: HTH Non Foaming Algaecide 60  
EPA Registration No. 1258-1080  
Notification Per PR-Notice 95-2

Dear Mr. Schifilliti:

This will acknowledge receipt of your notification, to correct a typographical error concerning weight of active ingredient and product, submitted under the provisions of FIFRA section 3 (c) 9. Based on a review of the submitted material, the following comments apply.

The application is acceptable and the notification has been made a part of the records for this file.

Sincerely,

Wanda Y. Mitchell  
Notification Coordinator  
Antimicrobial Program Branch  
Registration Division (7505)

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS: CAUTION:**

**Harmful if swallowed. Avoid breathing vapors. Avoid contact with  
skin, eyes, or clothing.**

**PRACTICAL TREATMENT: FIRST AID: For eyes and skin - flush with  
plenty of water for 15 minutes. Call a physician. If swallowed - drink plenty of water.  
Induce vomiting by sticking finger down throat. Call a physician. If inhaled - remove  
to fresh air. Call a physician.**

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish.

**STORAGE AND DISPOSAL:** Keep container closed when not in use. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Do not reuse empty container. Wrap container in newspaper and put in trash.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, decorative fountains and ponds that do not contain fish. For maximum effectiveness pools, spas, whirlpools, hot tubs, decorative fountains and ponds containing heavy growth of algae should be cleaned prior to using this product.

For pools having just visible algae growth add an initial dose of 11 to 17 ounces of this product per 10,000 gallons of water and remove settled algae debris by cleaning. Subsequent additions of 2 to 4 ounces of this product per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

For treatment of a freshly cleaned and filled pool add initially 6 to 11 fluid ounces of this product per 10,000 gallons of water.

Spas, whirlpools, hot tubs, decorative fountains and ponds having just visible algae growth require an initial dose 0.5 to 1 ounces of this product per 500 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, hot tub, decorative fountain, or pond, add initially half this dosage (e.g., 0.3 to 0.6 ounces per 500 gallons water). Subsequent additions of 0.1 to 0.2 ounces of this product per 500 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

This product will prevent the growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 7 to 11 ounces of this product per 10,000 gallons of water. If at the end of the swimming season pools have some visible algae growth, add 13 to 19 ounces of this product per 10,000 gallons of water. It is necessary that a uniform distribution of this product be made throughout the water for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

This product is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. This product can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with concentrated dry or liquid chlorine products.
