Subject: Label Amendment – Registration Review Interim Decision Risk Mitigation
Product Name: HTH Non-Foaming Algaecide 60
EPA Registration Number: 1258-1080
Received Date: 11/19/2021
Decision Number: 580257

Dear Joanna Holcombe:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Polixetonium Chloride Interim Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact me via email at miederhoff.eric@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "E. Miederhoff", is positioned above the typed name.

Eric Miederhoff
Chief, Reevaluation Branch
Antimicrobials Division
EPA Office of Pesticide Programs

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Wear rubber gloves when using this product. Suggested glove types include butyl and nitrile.

FIRST AID:

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

PHYSICAL OR CHEMICAL HAZARDS

This product contains a reducer. Keep away from oxidizing agents.

{Environmental hazards statement for end-use products in containers less than 5 gallons (liquid) use only the first sentence; all others use the full paragraph.}

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Before draining a treated [pool], [spa], [hot tub], or [fountain], contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated [pool], [spa], [hot tub], or [fountain] water to any location that flows to a gutter or storm drain or natural water body unless discharge is allowed by state and local authorities.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

[For crystal [clear] [clean] pool water, follow our 4 step pool care program: Step 1: Test and balance water, Step 2: Sanitize, Step 3: Shock at least once a week, Step 4: Add algaecide as directed.]

[For best results follow a weekly program with our [brand] System. Consult your authorized [brand] dealer for advice on the system that best suits your pool and your lifestyle.]

[Take a pool water sample to your authorized [brand] dealer regularly for a detailed water analysis.]

This product is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, decorative fountains and [synthetically lined] ponds that do not contain fish. For maximum effectiveness pools, clean spas, whirlpools, hot tubs, decorative fountains and [synthetically lined] ponds containing heavy growth of algae prior to using this product.

[For pools having just visible algae growth, add an initial dose of 11 to 17 [fluid ounces][fl oz] of this product per 10,000 gallons of water and remove settled algae debris by cleaning. Add 2 to 4 [fluid ounces][fl oz] of this product per 10,000 gallons of water every 5 to 7 days after initial treatment for maintenance.]

[VISIBLE ALGAE GROWTH: Add 16 [fluid ounces][fl oz] of this product per 10,000 gallons of water and remove settled algae debris by cleaning.]

[For treatment of a freshly cleaned and filled pool, add initially 6 to 11 fluid ounces of this product per 10,000 gallons of water.]

[INITIAL CLEAN WATER TREATMENT: Add 9 [fluid ounces][fl oz] of this product per 10,000 gallons of pool water.]

[MAINTENANCE: Add 3 [fluid ounces][fl oz] of this product per 10,000 gallons of pool water weekly.]

[IMPORTANT NOTE: Always apply chemicals separately. Never combine them. Do not mix this product with any other material.]

[WINTERIZING : This product will prevent the growth of most algae during the off-season when pools are not in use. For pools free of visible algae, add 9 [fluid ounces][fl oz] of this product per 10,000 gallons of water. If visible algae growth, add 16 [fluid ounces][fl oz] of this product per 10,000 gallons of water. Distribute this product uniformly throughout the water for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment during the off-season.]

[Spas, whirlpools, hot tubs, decorative fountains, and ponds having just visible algae growth require an initial dose of 0.5 to 1 [fluid ounces][fl oz] of this product per 500 gallons of water. For treatment of freshly cleaned and filled spa, whirlpool, hot tub, decorative fountain or [synthetically lined] pond, add initially 0.3 to 0.5 [fluid ounces][fl oz] per 500 gallons of water. Add 0.5 to 0.8 fluid ounces of this product every 5 to 7 days after initial treatment for maintenance.]

[This product will prevent the growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 7 to 11 [fluid ounces][fl oz] of this product per 10,000 gallons of water. If at the end of the swimming season pools have some visible algae growth, add 13 to 19 [fluid ounces][fl oz] of this product per 10,000 gallons of water. It is necessary that a uniform distribution of this product be made throughout the water for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.]

Note to reviewer:

[All text in brackets [AAA] is optional and may/may not be included on final label]

{All text in braces {AAA} is for information purposes and will not appear on final label}

[This product may be used in a pool treatment program with other chemicals normally used to treat pools and is effective at both acid and alkaline pH. This product can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with any other material, including any concentrated dry or liquid chlorine products.]

{Note to reviewer – which paragraph will appear on the container label depends on whether or not refillable or nonrefillable containers are used and whether or not product is packaged for household/residential use only}

STORAGE AND DISPOSAL

{Nonrefillable container - household/residential use}

[Keep this product in its tightly closed container when not in use. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.]

{Refillable container – household/residential use}

[Keep this product in its tightly closed container when not in use. Do not contaminate food or feed by storage or disposal or cleaning of equipment. Refillable container. Refill this container with Poly[oxyethylene(dimethyliminio)ethylene(dimethyliminio)ethylene dichloride] only. Do not use this container for any other purpose. Rinse empty container thoroughly with water prior to disposal.]

{Nonrefillable container - non-household/residential use}

[Keep this product in its tightly closed container when not in use. Do not contaminate food or feed by storage or disposal or cleaning of equipment. Nonrefillable container. Do not reuse this container. Offer for recycling if available. Rinse empty container thoroughly with water prior to disposal.]

{Refillable container – non-household/residential use}

[Keep this product in its tightly closed container when not in use. Do not contaminate food or feed by storage or disposal or cleaning of equipment. Refillable container. Refill this container with Poly[oxyethylene(dimethyliminio)ethylene(dimethyliminio)ethylene dichloride] only. Do not use this container for any other purpose. Cleaning of this container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. Rinse empty container thoroughly with water prior to disposal.]
