

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO.	DATE OF ISSUANCE
	1258-1098	13 MAR 1987
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT	
	nPH Plus Superchlorinator and Shock Treatment	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Olin Corporation
 350 Knotter Drive
 Cheshire, CT 06410

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

- section 3(c)(7)(A) provided that you:
1. Submit/cite all data required for registration/reregistration or your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
 2. Add the phrase "EPA Registration No. 1258-1098" to your label before you release the product for shipment.
 3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.
- If the above conditions are not complied with, the registrant shall be subject to cancellation of the registration and FIFRA section 3(c)(7)(A) for shipment of the product notwithstanding any claims of these conditions. A stamp copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, in skin or on clothing. Do not handle with bare hands. When handling, wear rubber gloves and goggles or face shield and use only thoroughly clean dry utensils. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARD

This product is toxic to fish. Do not contaminate lakes, ponds, or streams by cleaning of equipment or disposal of wastes.

CHEMICAL HAZARDS: WATER

Strong oxidizing agent. Mix only into water. Contamination may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and explosion. Avoid any contact with flame or burning materials, such as a lighted cigarette. Do not contaminate with moisture, garbage, dirt, organic matter, chemicals, including other pool chemicals, pool chlorinating compounds, household products, cyanuric acid pool stabilizers, soap products, paint products, solvents, or vinegar, beverages, or oil, dirty rags or any other foreign matter.

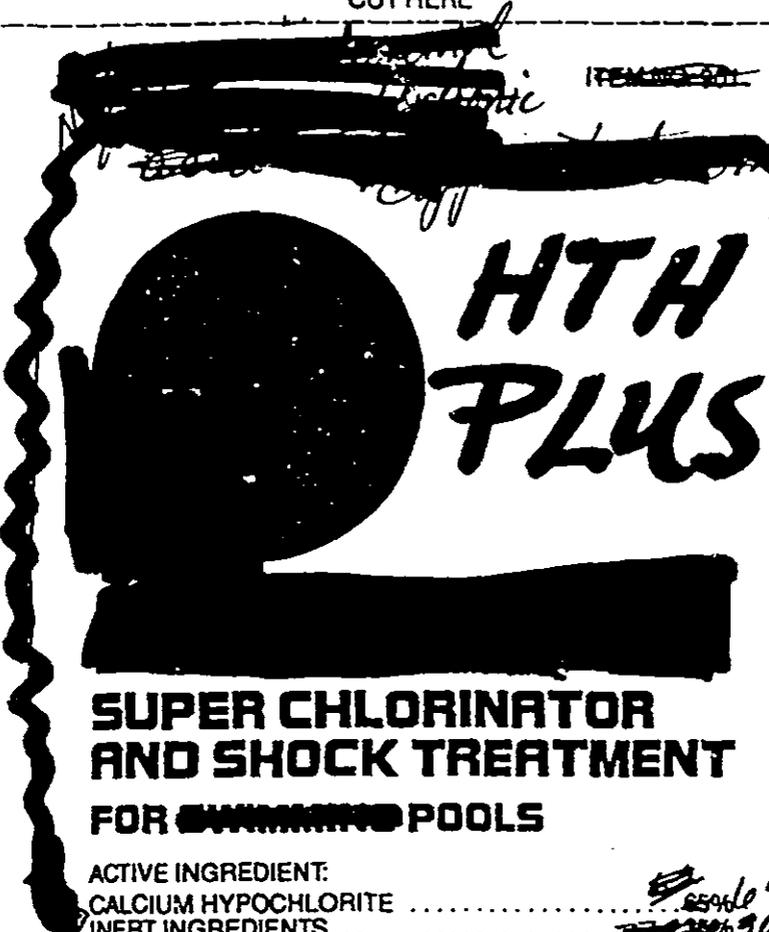

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed container, when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage or disposal, or cleaning of equipment.

HTH PLUS

SUPER CHLORINATOR AND SHOCK TREATMENT FOR SWIMMING POOLS

ACTIVE INGREDIENT:

CALCIUM HYPOCHLORITE

INERT INGREDIENTS

Available Chlorine

Handwritten notes: 65% 470, 65% 3670, 65% 470

KEEP OUT OF REACH OF CHILDREN DANGER

CONTAMINATION MAY CAUSE FIRE! DO NOT MIX WITH OTHER SUN CHEMICALS OR OTHER CHEMICALS. MIX ONLY INTO WATER.

FIRST AID (PRACTICAL TREATMENT)

If swallowed: Drink large quantities of water. Do not induce vomiting. Call a physician immediately.

If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If in eyes: Flush with cold water for at least 15 minutes. Call a physician immediately.

If inhaled: Remove person to fresh air. Call a physician immediately.

ACCEPTED WITH COMMENTS

SEE PRECAUTIONARY STATEMENTS ON BACK PANEL. - 1987

NET WT. 1 LB. [0.45 KG]

ALWAYS USE ENTIRE CONTENTS WHEN OPENED

SUN-BURN controls algae, kills bacteria and destroys organic contaminants.

DIRECTIONS FOR POOL USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. Always adjust pH between 7.2 and 7.4 prior to using SUN-BURN.

SUPERCHLORINATION OF STABILIZED POOLS

Superchlorinate by broadcasting over a large area in the deep end of the pool. Use 1 lb. per 16,000 gallons of pool water. Superchlorinate every 14 days when the water temperature is below 80°F. Superchlorinate every 7 days anytime the water temperature is above 80°F, bathing loads are heavy, pool water appears dull or hazy, an unpleasant chlorine-like smell is present, excessive eye irritation occurs, or after heavy rain. Pool should not be entered until the chlorine residual is 1.0-3.0 ppm.

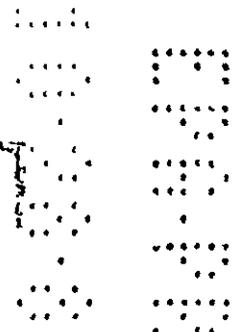

SHOCK TREATMENT FOR CONTROL OF ALGAE

If algae develops with resulting green color and slimy feeling, shock treatment is necessary.

Superchlorinate by broadcasting over a large area of the pool surface at the deep end. Use 1 lb. per 8,000 gallons of water. If the pool sides or bottom develop algae spots, direct SUN-BURN as close to the algae as possible. Note: Prolonged contact with pool surfaces may cause staining or bleaching. Immediately after treatment thoroughly clean pool by scrubbing surface of algae growth, vacuum and cycle through filter. If necessary, repeat the treatment. Pool should not be entered until the chlorine residual is 1.0-3.0 ppm.

WINTERIZING

While the water is still clear and clean, prepare for long periods of disuse by gradually applying 1 lb. SUN-BURN per 2,500 gallons of water. Run the filter until completely dispersed. Cover the pool with a plastic pool cover and prepare the heater, pump and filter components for winter by following manufacturer's direction.
