<p>US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460</p> <p>NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION</p> <p>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</p>	<p>EPA REGISTRATION NO. 1258-1121</p>	<p>DATE OF ISSUANCE</p>
<p>TERM OF ISSUANCE</p>		
<p>NAME OF PESTICIDE PRODUCT</p> <p>III Granular-S</p>		
<p>NAME AND ADDRESS OF REGISTRANT (Include ZIP code)</p> <p><input type="checkbox"/> _____</p> <p><input type="checkbox"/> _____</p> <p><input type="checkbox"/> _____</p> <p><input type="checkbox"/> _____</p> <p><input type="checkbox"/> _____</p> <p><input type="checkbox"/> _____</p>		
<p>NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p> <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p>		
<p>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p>		
<p>The enclosed Storage and Stability data for 20 days indicate that product degraded in available chlorine from 4.31% to 5.62% equivalent to 15% decrease in available chlorine. Storage and stability data would be acceptable on interim basis. The results of the 12 month storage and stability test must be received by the Agency within 2 years after the date of registration.</p> <p>The enclosed Storage and Stability data for 20 days indicate that product degraded in available chlorine from 4.31% to 5.62% equivalent to 15% decrease in available chlorine. - c. Please note that the percentage of the available chlorine should not be added up with the percentages of the active and inert ingredients in the ingredient statement.
- d. Note that the label may not have two different net weights.

3. Submit two (2) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

A copy of your proposed label with our acceptance stamp is enclosed with this registration with the understanding that you will comply with the conditions in the attachment to the Registration Notice.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

ACCEPTED
with COMMENTS
in EPA Letter Dated:

Active ingredient:
Calcium Hypochlorite*.....60%
Inert Ingredients.....40%
*Available Chlorine *Handwritten* 60%

JUN 1 1987

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

1958-1121

Direction for Pool Use: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Olin HTH Dry Chlorinator Granular is a concentrated chlorinating agent in a dry, free-flowing form which controls growth of algae and effectively kills many bacteria thus helping to keep the pool in a sanitary condition. Use clean, dry cup enclosed to measure HTH Granular.

READ PRECAUTIONARY STATEMENTS BEFORE USE:

INITIAL CHLORINATION: For initial chlorination of any pool water, add 17 oz. HTH for each 10,000 gallons. Allow 5 minutes to dissolve and then test the chlorine residual with a pool test kit and if below 1.0 ppm (parts per million) repeat this dosage until 1.0 ppm is obtained. Pool should not be entered until chlorine residual reads 1.0-3.0 ppm.

ROUTINE CHLORINE MAINTENANCE: Subsequently add 8 oz. of HTH per 10,000 gallon daily or as often as needed to maintain 1.0 ppm when the pool is in use or not. Use a test kit frequently to determine chlorine residual. If any chlorine residual is present, it is possible to increase the residual in the pool water by 1 ppm by using 2 oz. per 10,000 gallons of water. For best results, add HTH Granular as a solution (1oz. in 2qts. of water) to the pool water or scatter the granular material directly over the pool surface.

MAINTENANCE OF pH: pH should be maintained in the 7.2-7.6 range. Use any product available for this purpose; follow directions on the label. Maintaining 1.0 ppm residual and a 7.2-7.6 pH range will result in clean, sparkling water.

STABILIZED POOLS: If cyanuric acid is used to stabilize available chlorine follow label instructions for that product. Always maintain the chlorine residual at 1.0-1.5 ppm as determined by test kit. Add 2 oz. of HTH

per 10,000 gallons daily or as often as needed to maintain 1.0-1.5 ppm chlorine residual. To control algae during the pool season, superchlorinate every two weeks at the rate of 17 oz. HTH per 10,000 gallons of water when the afternoon temperature is below 80°F, and once every week when the temperature is above 80°F. Pool should not be entered until chlorine residual reads 1.0-3.0ppm.

SHOCK TREATMENT OR SUPERCHLORINATION: If algae develop, shock treat or superchlorinate the pool water by adding 17 oz. HTH for each 10,000 gallons of water. Allow 5 minutes for HTH to dissolve and repeat if necessary. Thoroughly clean pool by scrubbing surface of algae growth, then vacuum and cycle through filter. Pool should not be entered until chlorine residual reads 1.0-3.0 ppm.

OTHER USES: Ask your HTH supplier or write to Olin Corporation for specific literature on other accepted uses.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, in skin or on clothing. Do not handle with bare hands. When handling, wear rubber gloves and goggles or face shield and use only thoroughly clean dry utensils. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARD

This product is toxic to fish. Do not contaminate lakes, ponds, or streams by cleaning of equipment or disposal of wastes.

CHEMICAL HAZARDS. DANGER

Strong oxidizing agent. Mix only into water. Contamination may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and explosion. Avoid any contact with flame or burning materials, such as a lighted cigarette. Do not contaminate with moisture, garbage, dirt, organic matter, chemicals, including other pool chemicals, pool chlorinating compounds, household products, cyanuric acid pool stabilizers, soap products, paint products, solvents, acids, vinegar, beverages, oils, pine oil, dirty rags or any other foreign matter.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed container, when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage or disposal, or cleaning of equipment.

DO NOT MIX WITH OTHER SUN CHEMICALS OR
OTHER CHEMICALS. MIX ONLY INTO WATER.**

FIRST AID (PRACTICAL TREATMENT)

If swallowed: Drink large quantities of water. Do not induce vomiting. Call a physician immediately.

If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If in eyes: Flush with cold water for at least 15 minutes. Call a physician immediately.

If inhaled: Remove person to fresh air. Call a physician immediately.
