OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS 707)
WASHINGTON, DC 20460

EPA REGISTRATION NO.
1258-1133
TERM OF ISSUANCE

DATE OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREГИSTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Pace Disposable Floating
Cartridge

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Olin Corporation
350 Knotter Drive
Cheshire, CT 06410

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

This registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under the Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following changes before you release the product for shipment:

1. Revise the precautionary and practical treatment statements in your labeling in accordance with the enclosed Attachment A.

2. On the right page of panel #1, under the statement of practical treatment, after donot induce vomiting, add "...Avoid alcohol...".

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

3. On the center panel, the wordings "...& related compounds..." are considered to broad and are considered unwarranted. Delete the indicated wordings.

4. On the left panel, under the directions for use for pooluse add the reentry statement "Reentry into treated swimming pools is prohibited above levels of 3 ppm of chlorine...".

A stamped copy of the product label is enclosed for you. reccrds.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

ISOCYANURATE RED ATTACHEMENT A

LABELING: (Statements are based on review of referenced acute toxicity data)

1. The signal word is "DANGER"
2. Revise the Precautionary Statements to read:

CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

3. Revise the Statement of Practical Treatment to read:

STATEMENT OF PRACTICAL TREATMENT.

IF SWALLOWED: Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

DIRECTIONS FOR POOL USE: Do not attempt to open or refill this cartridge. Do not completely submerge cartridge.

1. Adjust pH to 7.2-7.6 with PACE pH Plus or PACE pH Minus.
2. Shock treat with PACE Superchlorinator and Shock Treatment. Follow label directions.
3. If water is unstabilized, stabilize with PACE Stabilizer and Conditioner. Follow label directions.
4. This product is marked in gallon increments from 5,000 to 40,000 gallons. To use this cartridge, punch out all feeder holes on both sides of cartridge up to and including the one corresponding to your pool's size. If pool is between sizes marked, punch out next higher hole. Make sure holes are punched out to allow free water flow through cartridge.
5. Punch out vent holes on both sides of cartridge. Place cartridge in pool. An eyelet has been provided on the cartridge so that you may secure it in the middle of the deep end of the pool if you desire.
6. Maintain free chlorine residual between 1.0-3.0 ppm. If chlorine is too low punch out an additional hole on each side of the cartridge. If the chlorine is too high, seal one hole on each side of the cartridge with waterproof plastic tape. If the chlorine is too high and your pool volume is 10,000 gallons or less, you may need to seal the vent holes also.
7. The cartridge will float on its side to indicate the need for replacement. **DO NOT ATTEMPT TO OPEN OR REFILL THIS CARTRIDGE!**

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool dry well-ventilated area away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Securely wrap container in several layers of newspaper and discard in trash.

EMERGENCY HANDLING: In case of contamination or decomposition do not reseal container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

**PRECAUTIONARY
TO HUMANS AND**

DANGER: Highly corrosive. May be fatal if swallowed, inhaled, or absorbed through skin, or on clothing. Do not use without goggles or face shield and thoroughly clean dry utility nose and throat. Avoid contact with eyes and wash contaminated clothing.

FIRST AID (Practical)

Drink large quantities of water. Call a physician immediately. May contraindicate the use of certain drugs. Brush off excess chemical from skin at least 15 minutes. Get immediate medical attention. If in Eyes: Flush with water for 15 minutes. Get immediate medical attention. Remove person to fresh air.

CHEMICAL HAZARD

Strong oxidizing agent. Use only in well-ventilated areas. Contamination with other chemicals (including other foreign matter may cause generation of heat, light, or possible generation of toxic gases on contact with flaming or cigarette. Do not use in device which has been used for unstabilized chlorinated hypochlorite). Such use may be toxic to fish and aquatic life. Do not discharge effluent into estuaries, oceans or public water systems without previous approval of local health department, state Board or Regional Office.
