

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20480	EPA REGISTRATION NO. 1258-1135	DATE OF ISSUANCE 16 SEP 1988
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT HTH 5 Gram Spa & Not Tub Tablets	
	NAME AND ADDRESS OF REGISTRANT (Include ZIP code)	
Olin Corporation 350 Knotter Drive Cheshire, CT 06410		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA section 3(c)(7)(G) provided that you:		
1. Submit with all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.		
2. Add the phrase "EPA Registration No. 1258-1135" to your label before you release the product for shipment.		
3. Submit three (3) copies of your final printed labeling before you release the product for shipment. Refer to the A-11 enclosure for a further description of final printed labeling.		
If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 4(d). Your release or shipment of the product constitutes acceptance of these conditions.		
A stamped copy of the label is enclosed for your records.

in EPA Letter Dated:

SEP 16 1988

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.
1258-1135

HTH 5gram SPA & HOT TUB TABLETS

DIRECTIONS FOR SPA AND HOT TUB USE: It is a violation of federal law to use the product in a manner inconsistent with its labeling. ~~Each 3 tablets, spoon (1 ounce)~~ ~~of product~~ will provide approximately 5 ppm available chlorine in 500 gallons of water.

Using an appropriate test kit and adjust the water to the following values: pH 7.2 - 7.8; total alkalinity 60 - 125 ppm; calcium hardness 200 - 1,000 ppm. Maintain these conditions for proper spa and hot tub operation by frequent testing with the test kit. The spa or hot tub can be stabilized by adding enough cyanuric acid to give a level of 20 - 60 ppm. It is recommended that the water be drained every 30 - 90 days, more often under heavy use. Consult manufacturers' recommendations concerning the compatibility of chlorine sanitizers with their equipment. Some oils, lotions, fragrances, cleaners, etc., may cause foaming or cloudy water and may react with chlorine sanitizers to reduce their efficiency.

START-UP (FRESHLY FILLED): (1) Turn on the circulation system and ensure that it is operating properly. (2) Add ~~3 tablets~~ ^{add 3 tablets} ~~1 tablespoon (1 ounce)~~ of SOCK IT ^(R) ~~to~~ 500 gallons of water. ~~Always use a clean, dry spoon.~~ Check the free available chlorine (FAC) and if below 4 - 5 ppm, repeat as needed.

REGULAR USE: (1) Turn on the circulation system and ensure that it is operating properly. (2) ~~Scatter approximately 1 tablespoon (1 oz.) of SOCK IT~~ ^{add 3 tablets} ~~to~~ 500 gallons ^{per 500} ~~over the surface of the water~~ or add as a solution (mix ~~in~~ in 1 quart of water). Test for FAC and add additional product, if necessary, to attain 4 - 5 ppm FAC. (3) After each use, shock treat with ~~9 tablets (1.5 oz.)~~ ^{9 tablets} SOCK IT ^(R) per 500 gallons to control odor and algae. Repeat as needed. Spa or hot tub should not be entered until FAC reaches 4 - 5 ppm.

~~An alternate method is to use HTH (R) tablets in a PULSAR (R) Feeder or HTH Dissolving Basket or other appropriate continuous feeder or dissolving device.~~

EXTENDED NON-USE PERIOD: During extended periods when the spa or hot tub is not being used, add ~~3 tablespoons of SOCK IT (R) (1.5 oz.)~~ ^{3 tablets} per 500 gallons, twice a week to stabilize spas and hot tubs OR ~~1 tablespoon~~ ^{9 tablets} daily per 500 gallons if unstabilized, or as needed to maintain 1 - 3 ppm FAC.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, in skin or on clothing. Do not handle with bare hands. When handling, wear rubber gloves and goggles or face shield and use only thoroughly clean dry utensils. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash so. contaminated clothing before reuse.

ENVIRONMENTAL HAZARD

This product is toxic to fish. Do not contaminate lakes, ponds, or streams by cleaning of equipment or disposal of wastes.

CHEMICAL HAZARD. DANGER

Strong oxidizing agent. Mix only into water. Contamination may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and explosion. Avoid any contact with flame or burning materials, such as a lighted cigarette. Do not contaminate with moisture, garbage, dirt, organic matter, chemicals, including other pool chemicals, pool chlorinating compounds, household products, cyanuric acid pool stabilizers, soap products, paint products, solvents, acids, vinegar, beverages, oils, pine oil, dirty rags or any other foreign matter.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed container, when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage or disposal, or cleaning of equipment.
