

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460 NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	EPA REGISTRATION NO. 1258-1144	DATE OF ISSUANCE 81 OCT 1988
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT PAC-5 Gran. Sol. & Hot Tub Baiting	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

[Redacted]
 [Redacted]
 [Redacted]

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

1. If you are a conditionally registered product, you must submit to the Agency all data required for registration/reregistration of your product under FIFRA section 3(c)(5) within the Agency required time period of similar products to submit such data.
 2. Add the words "EPA Registration No. 1258-1144" to your label and release the product for shipment.
 3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the Agency for the current description of final printed labeling.
 4. If these conditions are not complied with, the registration is subject to cancellation in accordance with FIFRA section 3(d). Your release or shipment of the product constitutes acceptance of these conditions.
- A copy of each of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly Corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves and only thoroughly clean, dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

FIRST AID: (PRACTICAL TREATMENT): If Swallowed: Drink large quantities of water. Do not induce vomiting. Call a physician immediately. If on Skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention. If in Eyes: Flush with cold water for at least 15 minutes. Get immediate medical attention. If Inhaled: Remove person to fresh air. Get immediate medical attention.

CHEMICAL HAZARDS: DANGER: Strong oxidizing agent. Use only clean, dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flammable or burning material, such as a lighted cigarette. Do not use HTH Granules in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARD: This product is toxic to fish. Do not contaminate lakes, ponds or streams by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL:

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Securely wrap container in several layers of newspaper and discard in trash.

EMERGENCY HANDLING: In case of contamination or decomposition, do not reuse container. If possible, isolate container in open and well ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area or bury in a safe place.

DIRECTIONS FOR SPA AND HOT TUB USE: It is a violation of federal law to use the product in a manner inconsistent with its labeling. ~~Each half ounce of product~~ ^{5 tablets} will provide approximately 4 ppm available chlorine in 500 gallons of water.

Using an appropriate test kit, test and adjust the water to the following values: pH 7.2 - 7.8, total alkalinity 60 - 100 ppm, calcium hardness ~~200~~ ¹⁵⁰ ppm minimum. Maintain these conditions for proper spa and hot tub operation by frequent testing with a test kit. Do not allow cyanuric acid level to exceed 150 ppm. It is recommended that spas and hot tubs be drained every 30 - 90 days, more often under heavy use. Consult manufacturer's recommendations concerning the compatibility of chlorine sanitizers with their equipment. Some oils, lotions, fragrances, cleansers, etc., may cause foaming or cloudy water and may react with chlorine sanitizers to reduce their efficacy.

START-UP (FRESHLY FILLED): 1. Turn on the circulation system and ensure that it is operating properly. 2. Add ~~one ounce of PACE~~ ^{5 tablets} for each 500 gallons of water. Check the free available chlorine (FAC) and, if below 4 - 5 ppm, repeat as needed.

REGULAR USE: (1) Turn on the circulation system and ensure that it is operating properly. (2) Scatter a ~~half ounce of PACE~~ ^{5 tablets} (per 500 gallons) over the surface of the water. Test for FAC and add additional product, if necessary, to attain 4 - 5 ppm FAC. (3) Maintain 1 - 3 ppm FAC while the spa or hot tub is in use. (4) After each use, shock treat with ~~1.5 ounces~~ ^{15 tablets} per 500 gallons of ~~PAGE~~ ^{PAGE} to control odors and algae. Repeat as needed. Spa or hot tub should not be entered until FAC reaches 4 - 5 ppm.

~~An alternate method is to use PACE (R) Tablets or PACE (R) Granule Tablets or PACE (R) Sticks for continuous feeding. Follow label directions.~~

EXTENDED NON-USE PERIOD: During extended periods when the spa or hot tub is not being used, add ~~15 ounces~~ ^{15 tablets} per 500 gallons twice a week with the circulation system running or as needed to maintain 1 - 3 ppm free available chlorine.
