1258-1173

1258

ACCEPTED
JAN 3 1991

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 1258-1173

HTH® EXTRA STRENGTH SUPERCHLORINATOR SHOCK

- **EXTRA STRENGTH...**
- **FAST-ACTING**
- **CONTROLS ALGAE**
- **KILLS BACTERIA!**
- **DESTROYS ORGANIC CONTAMINANTS!**
- **NO NEED TO PREDISSOLVE!**

ACTIVE INGREDIENT: CALCIUM HYPOCHLORITE*75%

INERT INGREDIENTS:25%

*Available Chlorine75%

E.P.A. Reg. # 1258 - 1173

KEEP OUT OF REACH OF CHILDREN

DANGER!

CONTAMINATION MAY CAUSE FIRE OR EXPLOSION!

MIX ONLY INTO WATER.

SEE FIRST AID AND PRECAUTIONARY STATEMENTS ON BACK PANEL.

NET WT. 16 OZ. (1 LB.)(0.45 KG)

Olin Corporation
120 Long Ridge Road
Stamford, CT 06904

This product controls algae, kills bacteria and destroys organic contaminants.

ALWAYS USE ENTIRE CONTENTS WHEN OPENED (for one pound packet only)

DIRECTIONS FOR POOL USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling. Always adjust pH between 7.2 and 7.4 prior to using this product.

As a preventative treatment, shock treat once per week to prevent pool problems.

In addition to weekly shock treatment, you should shock treat to remedy problems which may occur when bathing loads are high, water appears hazy or dull, unpleasant odors or eye irritation occur, after heavy wind and rainstorms, or if algae does develop with resulting green color and slimy feeling.

SHOCK TREATMENT OF SWIMMING POOLS

Slowly pour into the skimmer or broadcast over a large area of the pool surface at the deep end. If you choose to add through the skimmer, add slowly and be sure that no other chemicals or tablets are present in the skimmer basket. Use 1 lb. (16 oz.) per 12,000 gallons of water. If the sides or bottom develop algae spots, direct this product as close to the algae as possible. Note: Prolonged contact with pool surfaces may cause staining or bleaching. Immediately after treatment, thoroughly clean pool by scrubbing surface of algae growth, vacuum and cycle through filter. If necessary, repeat the treatment. Pool should not be entered until the chlorine residual is 1.0-3.0 ppm.

WINTERIZING:

While water is still clear and clean, prepare for long periods of disuse by gradually applying 4 lbs. (64 oz.) of this product per 12,000 gallons of water. Run the filter until completely dissolved. Cover the pool with a plastic pool cover and prepare the heater, pump and filter components for winterizing by following manufacturers directions

STORAGE AND DISPOSAL:

Do not store or attempt to reseal partially used bag. Use entire contents of bag when treating pool (for one pound bag only). Keep this product dry in original tightly closed container, when not in use (for resealable container labelling only). Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage or disposal, or cleaning of equipment.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. When handling, wear rubber gloves and goggles or face shield and use only thoroughly clean dry utensils. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

FIRST AID (Practical treatment)

IF ON SKIN: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention.

IF INHALED: Remove person to fresh air. Call a physician immediately.

IF IN EYES: Flush with cold water for at least 15 minutes. Call a physician immediately.

IF SWALLOWED: Drink large quantities of water. Do not induce vomiting. Call a physician immediately.

CHEMICAL HAZARDS: DANGER: Strong oxidizing agent. Mix only into water. Contamination may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and explosion. Avoid any contact with flame or burning material, such as a lighted cigarette. Do not contaminate with moisture, garbage, dirt, organic matter, chemicals, including other pool chemicals, pool chlorinating compounds, household products, cyanuric acid pool stabilizers, soap products, paint products, solvents, acids, vinegar, beverages, oils, pine oil, dirty rags, or any other foreign matter.

ENVIRONMENTAL HAZARD: This product toxic to fish. Do not contaminate lakes, ponds, or streams by cleaning of equipment or disposal of wastes.
