

DIRECTIONS FOR POOL USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is a granular product effective against algae. Use only on unpainted white plaster pool surfaces. If used on any other color or surface, bleaching or damage to the pool may occur.

1. Adjust the pH of the pool water to 7.2 - 7.6 using the appropriate product.
2. Turn off the filter pump before beginning application.
3. Do not use the pool while it is being treated.
4. Sprinkle this product directly over those areas where algae appears. Use up to 1 lb. per 10,000 gallons of pool water. For severe cases the dosage may be doubled.
5. The filter pump can be turned on after the product has been in the pool for at least 8 hours.
6. Brush pool and vacuum.
7. Repeat the above treatment if necessary.
8. Do not use the pool until the chlorine residual has dropped to 3 ppm or less as determined by a suitable test kit.
9. Adjust the pH to 7.2 - 7.6.
10. Maintain the chlorine residual at 1 - 3 ppm.

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 1258-1189	DATE OF ISSUANCE SEP 8 1980
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT THRIFTY 3" TABLETS	

NOTICE OF PESTICIDE:  REGISTRATION  
 REREGISTRATION  
 (Under the Federal Insecticide, Fungicide,  
 and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

D.I. Corporation  
 150 Knotters Drive  
 Chesapeake, MD 20610

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

For a short list of information you should refer to the EPA section on (1) (2) (3) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

- a. Add the phrase "EPA Registration No. 1258-1189."
- b. In the ingredient statement, do not line up the percentage of available fluoride with the declared percentages of active and inert ingredients. It is misleading.
- c. The net contents must be declared on the label or on the enclosure.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed label.

**DIRECTIONS FOR POOL USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is designed to dissolve slowly (3 -7 days), providing a steady source of available chlorine to control growth of algae and kill many harmful bacteria.

**For Best Results:** Place this product in a feeder following manufacturers directions or in a floating dispenser or skimmer. Do not permit this product to contact plastic pool linings or metal objects. Do not throw this product directly into the pool. If used in skimmer run pump and filter until tablets are dissolved.

**STARTUP:**

1. Adjust pH to 7.2 to 7.4 using appropriate product.
2. Shock treat pool with appropriate product to obtain 1-3 ppm free available chlorine.
3. The next day stabilize your pool using appropriate product.

**ROUTINE CARE:** Add 1 tablet of this product for each 10,000 gal. of water every week, or as needed, to maintain chlorine residual at 1-3 ppm. Maintain pH between 7.2-7.6, total alkalinity 90-125 ppm and calcium hardness above 200 ppm. Test with a reliable test kit. Make necessary adjustments with the appropriate pool care product(s). Shock treat weekly with appropriate product.

**IN CASE OF:** Algae, colored water, unpleasant odors, burning eyes, excess bacher load, heavy rains and winds, or high temperatures, shock treat your pool using the appropriate product. If algae are visible scrub pool surfaces and vacuum. Repeat treatment the following day if necessary. Do not enter pool until chlorine residual is 1-3 ppm.
