**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product is an effective preservative in most aqueous compositions. Typical applications, and the suggested range of concentrations on which trials can be based are:

Latices: Natural and synthetic latices based on acrylate, butadiene, PVA, styrene and other monomers, for use in various applications, e.g., wax, paint, floor polishes, add 0.05 - 0.20 % of this product (based on total weight of product).

Paints and Stains: for in-can preservation, add 0.05 - 0.20% of this product (based on total weight of product).

Oil-in-water emulsions: Metalworking fluids of the soluble oil, semi-synthetic or synthetic type, for use in various applications, e.g., cutting, grinding, and rolling fluids, add 0.025 - 0.20% (based on total weight of product).

Adhesives: Carboxymethylcellulose (CMC) and derivatives, animal glues, adhesives based on gelatins and latex, add 0.10 - 0.20% of this product (based on total weight of product).

Aqueous mineral slurries: titanium dioxide, calcium carbonate, clay, add 0.01 - 0.2% of this product (based on total weight of product).

Tape joint compounds: wallboard, spackling and drywall joint products, add 0.05 - 0.30% of this product (based on total weight of product).

Car care products: car washing products - surfactants/detergent solutions, silicone emulsions, add 0.05 - 0.30% of this product (based on total weight of product).

Not for use in preserving aqueous compositions which may come in contact with food.

General Recommendations: The concentration required to give protection depends on several factors. These include the susceptibility of the system to microbiological degradation, the extent to which microorganisms can gain access, the species involved, pH, temperature, and length of time for which protection is required. For protection against bacterial and fungal attack a concentration within the range of 0.01 - 0.30% of this product is considered sufficient.
