FIRST AID

IF SWALLOWED

- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water, if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF IN EYES

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING

- Take off contaminated clothing
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

MEDICAL EMERGENCY INFORMATION CENTER: 1-800-654-6911.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

Product Weight: 9.61 lbs/gal, 1.15 kg/l

Net Contents: 1 qt. (946 ml)

EPA Reg. No. 1258-1272

EPA Est. No. is 36209-NJ-01.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not contaminate water by the cleaning of equipment or disposal of waste. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination Systems (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Do not stack more than four drums high. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

PLASTIC: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

METAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

FOR INFORMATION ON SPILLS, CALL 1-800-654-6911

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Pool Breeze pool care system algicide 60 is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using Pool Breeze pool care system algicide 60.

For pools having just visible algae growth, add an initial dose of 11 to 17 fluid ounces of Pool Breeze pool care system algicide 60 per 10,000 gallons of water and remove settled algae. For treatment of freshly cleaned and filled pools, add 6 to 11 fluid ounces of Pool Breeze pool care system algicide 60 per 10,000 gallons of water. Subsequent additions of 2 to 4 fluid ounces of Pool Breeze pool care system algicide 60 per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Pool Breeze pool care system algicide 60 will prevent growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 6 to 10 fluid ounces of Pool Breeze pool care system algicide 60 per 10,000 gallons of water. If at the end of swimming season pools have some visible algae growth, add 12 to 17 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of algicide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

Pool Breeze pool care system algicide 60 is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. Pool Breeze pool care system algicide 60 can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix Pool Breeze pool care system algicide 60 with concentrated dry or liquid chlorine products.
