Suite 1100
Atlanta, GA 30328

AUG 29 2014

Subject: AW13
EPA Reg. No. 1258-1337
Application Date: June 6, 2014
Receipt Date: June 9, 2014

Dear Ms. Richardson:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is accepted.

Proposed Registration Changes:

Revised Basic and Alternate Confidential Statements of Formula (CSF's)

- To adjust certified limits
- To add an alternate formulation

Revised Label

- Page 1
 - Add Spanish translation of KOROC
 - Rewording of "Contamination or improper use" statement
 - Revise placement of Precautionary and First Aid statement
- Page 4
 - Provide optional brand name for test kit/strips
 - Move re-entry statement above dosing instructions
 - Add statement to avoid direct placement of product in pool
 - Remove optional statement for pump operation time
 - Add statement to test FAC
- Pages 5-7
 - Additional marketing text

General Comments:

The revised Basic Confidential Statement (CSF) of Formula dated 06/06/14 supersedes all previously accepted CSF's. The revised Alternate CSF (Alternate Formula A) has been made a part of the file for this product.

Based on a review of the information submitted, the labeling amendment is acceptable. A stamped copy of the label is enclosed for your records. This labeling supersedes all previously accepted ones on file. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one (1) copy of the final printed labeling before you release this product for shipment bearing the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for up to 18 months from the date of this letter. After 18 months from the date of this letter you may only distribute or sell this product if it bears this new revised labeling of subsequently approved labeling.

Should you have any questions or comments concerning this letter, please contact me at Henson.Wanda@epa.gov or call (703) 308-6345.

Sincerely,

Demson Fuller
Product Manage Team 32
Regulatory Management Branch II
Antimicrobials Division (7510P)

ACCEPTED
08/29/2014
Under the Federal Insecticide, Fungicide
and Rodenticide Act as amended, for the
pesticide registered under
EPA Reg. No. 1258-1337

Note to reviewer:
{Items in brackets [AAA] are optional and may/may not be included on final label}
{Items in braces {AAA} are for information purposes and will not appear on final label}

AW13

ACTIVE INGREDIENT: Trichloro-s-Triazinetrione	97.3%
OTHER INGREDIENTS:	2.7%
TOTAL:	100.0%

[Available chlorine 88%]

KEEP OUT OF REACH OF CHILDREN
[MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS]

DANGER [PELIGRO]

Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases and spatter. Do not add water to this product. Add only into water. If floater or other dispensing device contains tablets or tablet residue, do not remove the device from water for more than five minutes. Do not mix this product with a small amount of water. Only add directly to your pool. Corrosive. Causes irreversible eye damage. Causes eye and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed.

{Note to reviewer: Although this product has a "Danger" signal word, as per the EPA label review manual "The Agency may permit reasonable variations in the placement of the First Aid statement as long as the reference statement, "See First Aid (or Statement of Practical Treatment) on (identify appropriate panel)" appears on the front panel." If the First Aid Statements are placed on the front panel of the final graphic label, "and First Aid" will not be used.}

Read all Precautionary and First Aid Statements on [left] [right] [side] [back] panel before use.

NET WEIGHT:

**PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.**

DANGER: Corrosive. Causes irreversible eye damage. Causes eye and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and throat.

- Open in a well-ventilated area. Do not breathe dust and fumes.
- Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove contaminated clothing and wash clothing before reuse.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

PHYSICAL AND CHEMICAL HAZARDS:

DANGER: If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gas and spatter. Do not add water to this product. Add only into water.

- [Do not mix this product with a small amount of water. Only add this product directly to your pool.]
{This statement will appear on Pool use labels only.}
- Do not allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

- Keep all foreign matter, including other water treatment products, away from this product.
- Use only clean and dry utensils to dispense this product.
- Do not allow this product to contact other water treatment products. If used in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.
- Avoid spilling this product.

Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.

- Store in a cool, dry, well-ventilated area away from heat or open flame.

Strong oxidizing agent. This product can increase fire intensity.

- Keep away from heat and from flame and burning material (like a lighted cigarette).

{First sentence of paragraph below for containers 50 lb. or less; complete paragraph for all other sizes}

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE & DISPOSAL:

{Nonrefillable container - household/residential use}

[Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING."]

{Nonrefillable container - non-household/residential use}

[Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING." Nonrefillable container. Do not reuse this container. Offer for recycling if available. Rinse empty container thoroughly with water to dissolve all material prior to disposal.]

EMERGENCY HANDLING: In case of contamination or decomposition, do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

*{If the following Spanish statement is used, it must appear directly above DIRECTIONS FOR USE.}
Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)*

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

These convenient and easy to use [BRAND] chlorinating [sticks*¹] {or} [cartridges] are formulated to protect against chlorine loss in direct sunlight, and can be used in skimmers [, [[and] floaters] [and feeders]]. They are designed to dissolve slowly to provide a steady source of available chlorine. [For crystal clear pool water, follow our 4-step pool care program: Step 1: Test and balance pool water, Step 2: Sanitize, Step 3: Shock at least once a week, and Step 4: Add algacide as directed by that product.]

Adjust and maintain pool water pH from 7.2 to 7.6, total alkalinity from 80 to 120 parts per million (ppm) and calcium hardness above 200 ppm. Test frequently using [a reliable {or} an HTH®] test kit [or test strip] that measures all of the above ranges. [Bring a pool water sample to your [brand] dealer frequently to test for water balance.] Maintain free available chlorine between 1 - 4 ppm using [a stabilized chlorine product] {or} [brand granular shock]. **Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of bodily injury.**

[Directions:

1. Shock pool with [a/an] [brand] shock product.
2. Add stick* to skimmer per 5,000 gallons of pool water. Refer to "Method of Application for [Skimmer] [Floater] [Cartridge] Use" section [below][on label].
3. Weekly shock pool with [a/an] [brand] shock product.]

Do NOT put sticks directly into the pool. Direct contact with pool liners or surfaces may cause bleaching or other damage.

{Directions for use with stick form of this product in skimmer [or floater]}

[Method of Application for [Skimmer] [or] [Floater] Use:

Ensure that the [skimmer basket][or] [floater] is free of any other chemicals, tablets, or residue. Place this product in the [skimmer basket][or] [floater]. Use one stick per 5,000 gallons of water. Do not add other chemicals to the [skimmer][or] [floater] while this product is present. Test free available chlorine with [a reliable] {or} [an HTH®] test kit [or test strips]. If free available chlorine is above 4 ppm, reduce skimmer flow rate or daily pump operation time. If chlorine residual is below 1 ppm, add enough [brand] granular calcium hypochlorite product to maintain 1-4 ppm of chlorine, and increase skimmer flow rate or daily pump operation time.

Place [a] new [AW13 or other brand] stick[s]* into the [skimmer] [or] [floater] each week, or when the old stick[s]* ha[s][ve] fully dissolved. The number of sticks* and frequency of use will vary with bather load, water temperature, rain, and pump operating time.]

¹ *The term "stick[s]" may be replaced with "tablet[s]", "capsule[s]", "cube[s]", or other descriptive term, either singular or plural, according to each respective product design.

{Directions for use with cartridge form of this product in a [brand] feeder}

[Method of Application for Cartridge Use:

Turn off filter pump. Open [brand] feeder, remove cartridge container and allow any water remaining in the empty cartridge to drain back into the feeder. Dispose of empty cartridge material. Refill cartridge container with new [AW13 or other brand] cartridge. Replace cartridge container, then close the feeder and turn filter pump back on. Set chlorine delivery rate to maximum setting.

After 24 hours check chlorine residual level with [a reliable] {or} [an HTH®] test kit [or test strips]. If free available chlorine is above 4 ppm, reduce the feed rate and retest in 24 hours.

Test chlorine residual on a regular basis, and if below 1 ppm free available chlorine, increase dial setting. Be sure to refill cartridge when contents are fully dissolved.]

{Optional marketing claims – anywhere on label}

- [Controls Bacteria and Algae]
- [Bacteria and algae control]
- [Prevents Bacteria and Algae]
- [Kills bacteria]
- [Kills Algae {or} Inhibits Algae]
- [Sanitizer [for Chlorine Pools]]
- [Sanitizes pool water]
- [Swimming pool sanitizer]
- [Sanitizer for swimming pool and pool water]
- [3-in-1 Action: Sanitizes, prevents algae, and clarifies water]
- [[2-in-1][Dual] Action: Sanitizes and prevents algae]
- [Multipurpose sticks]
- [Multi-action sticks]
- [Kills bacteria and destroys organic contaminants]
- [With built-in resistance to sunlight]
- [Stabilized {or} Sun protected] for extended chlorine life]
- [Stabilized Sanitization]
- [For Skimmer Chlorination Only]
- [For Skimmer Use Only]
- [Enhanced filter performance]
- [Use 1 Stick per 5,000 gallons]
- [Slow dissolving]
- [Regulates chlorine release]
- [Advanced technology for slow erosion]
- [Dissolves slowly for long lasting sanitization]
- [Longer lasting]
- [Controlled Delivery System]
- [Controls erosion rate of product]
- [Controlled release]
- [Contains CDT* {footnote} [*Controlled Delivery Technology]]
- [Slow erosion to protect liners]
- [Slow eroding tablets]
- [Sanitizes {or} Chlorinates] up to [14 days {or} 2 weeks]
- [Extended Sanitization for up to 14 Days]
- [Lasts longer than other sticks]
- [Gentle on Equipment and Liners]

[Will not cause bleached liners when used as directed]
 [[Ideal for [vinyl-lined pools] {or} [pools with vinyl liners] when used as directed]
 [Shock weekly with [POOLIFE ® Exclusive Pool Care Collection Turboshock {or other brand}]
 [Assists filtration]
 [[Contains] Filter Aid]
 [Keeps pool water clean and crystal clear]
 [Produces sparkling clean swimming pool water]
 [Restores clarity to pool water]
 [Clarifies pool water]
 [Contains a clarifier] [Contains built-in clarifier]
 [[Contains] clarifying [additive]]
 [Remove phosphates from pool water]
 [With built-in phosphate remover]
 [For [crystal clear], {or} Sparking [blue] pool water]
 [Easy, economical, convenient to use]
 [Bonus pack]
 [Value Pack]

[Step 1: Balance
 Step 2: Sanitize
 Step 3: Shock
 Step 4: Prevent Algae]
