Subject: Label Amendment – Update Referral Statement Placement, Additional Marketing Content and Minor Revisions
Product Name: Slow Dissolving CHC-Mass
EPA Registration Number: 1258-1371
Received Date: June 15, 2021
Action Case Number: 00306426

Dear Amy Toogood:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

Page 2 of 2
EPA Reg. No. 1258-1371
Action Case Number: 00306426

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Wanda Henson by phone at (703) 308-6345, or via email at henson.wanda@epa.gov

Sincerely,

A handwritten signature in black ink, appearing to read 'D Fuller', with a long horizontal stroke extending to the right.

DANGER [/] [PELIGRO]

{Note to reviewer: In accordance with 40 CFR 156.68(d), all first aid statements, as prescribed, will appear on the front panel of the product label.}

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

Read all precautionary statements on [left][right][back][side] panel before use.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed or absorbed through skin.

- [·] Open in well-ventilated area. Do not breathe dust. Wear dust/mist mask.
- [·] Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear protective eyewear and rubber gloves. For additional protection of skin, wear long sleeves and long pants.
- [·] Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- [·] Remove and wash contaminated clothing before use.

PHYSICAL AND CHEMICAL HAZARDS:

If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water.

- [·] Do not allow to become wet or damp before use.
- [·] Do not mix this product with a small amount of water. Only add directly to your pool.
- [·] Product can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases.
- [·] Keep all foreign matter, including other water treatment products, away from this product.
- [·] *{Include only for final printed label that allows for floater or feeder use.}* [Do not use this product in a floater or feeder that has been used with any other product.]
- [·] Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.

Exposure to heat can cause this product to rapidly decompose, leading to intense fire, explosion, and the release of toxic gases.

- [·] Store in a cool, dry, well-ventilated area.

Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and from flame and burning material (like a lighted cigarette).

{containers < 50 pounds use only the first sentence; containers ≥ 50 pounds include all}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

DO NOT use this product with any other chlorinating compound.
DO NOT place in skimmer baskets that contain undissolved material from previously used tablets or sticks.

[SWIMMING POOLS:]

[For best results follow a weekly program with our [brand] System.] [Consult your authorized [brand] dealer for advice on the system that best suits your pool and your lifestyle.]

[Take a pool water sample to your authorized [brand] dealer regularly for a detailed water analysis.]

[HOW TO USE: Do not allow this product to contact other water treatment products.

1. Use only in pools with a skimmer and skimmer basket.
2. Skimmer basket should be free of all other water treatment products before adding recommended amount of this product.
3. Place [tablet] [tab] [octagon] [disk] [product] in the empty skimmer basket.
4. Replace with a new [tablet] [tab] [octagon] [disk] [product] as needed. Do not mix with other products or dissolve before use. [Do not pre-mix this product. Only add this product directly to your pool.]

[WATER BALANCE:

[For optimum product performance, swimmer comfort and crystal clear water, always maintain pH from 7.2 to 7.6, total alkalinity from 60 to 120 parts per million (ppm) and calcium hardness above 200 ppm and cyanuric acid (chlorine stabilizer) between 20-50 ppm. Test frequently using a reliable test kit that measures all the above ranges. Use [brand] pool care products to make adjustments. Follow label directions for each product.

Do not enter pool until the free available chlorine residual is 1- 4 ppm for each of the below noted water treatment applications]

{or}

[For optimum product performance, swimmer comfort and crystal clear water always maintain:

Acceptable Range for Balance	
Total Alkalinity	60-120 ppm
pH	7.2 - 7.6
Calcium Hardness	above 200ppm
Cyanuric Acid (chlorine stabilizer)	20-50 ppm
Available Chlorine	1 - 4ppm

Test frequently using an **hth test kit** or **hth test strips** that measure all the above ranges. Use [brand] pool care products to make adjustments. Follow label directions for each product.

Do not enter pool until the free available chlorine residual is 1- 4 ppm for each of the below noted water treatment applications.]]

[OPENING YOUR POOL: For best results, see Water Balance section above before treatment. Adjust and maintain pH in the 7.2 to 7.6 range. Follow "SHOCK TREATMENT/SUPERCHLORINATION" directions on this package. Test free available chlorine residual with a pool test kit. Repeat treatment as needed.]

[ROUTINE CHLORINATION: For best results, see Water Balance section above before treatment. Throughout the pool season, adjust pH to 7.2-7.6.

Begin by using 1 [tablet] [tab] [octagon] [disk] of this product per 10,000 gallons of pool water.

After one day, use a suitable test kit to check free available chlorine residual. Increase or decrease the number of [tablet] [tab] [octagon] [disk] to maintain a free available chlorine residual of 1-4 ppm. Follow "HOW TO USE" directions on this label.]

[SHOCK TREATMENT/ SUPERCHLORINATION: For best results, see Water Balance section above before treatment. Adjust pH to 7.2 to 7.6 [with [brand]] [water balance adjusters]. Follow label directions. Shock treat using [a chlorine shock product or [brand]]. Follow label directions on that product. Do not reenter pool until the free available chlorine residual is 1 to 4 ppm.] [Shock treat your pool when opening, then weekly to prevent pool problems. In the summer months when the pool water temperature is 80° F or above, or if the chlorine residual falls rapidly after regular chlorination, superchlorination is recommended. Use a chlorine shock product and follow the directions on that product for superchlorination.]

[Additional shocking to keep water clean and clear is recommended after: rain and heavy winds, high number of swimmers, increased water temperature, increased frequency of pool usage.]]

[WINTERIZING: For best results, see Water Balance section above before treatment. Follow SHOCK TREATMENT/SUPERCHLORINATION directions above and add per winterizing directions on the chlorine shock product.]

STORAGE & DISPOSAL:

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.

EMERGENCY HANDLING: In case of contamination or decomposition – Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

{Pool Capacity}

TO DETERMINE YOUR POOL CAPACITY IN U.S. GALLONS, USE THE APPROPRIATE FORMULA BELOW:	
POOL SHAPE	FORMULA (Use measurements in feet only)
RECTANGULAR	Length x Width x Average Depth x 7.5=Total Gallons.
ROUND	Diameter x Diameter x Average Depth x 5.9=Total Gallons.
OVAL	Maximum Length x Maximum Width x Average Depth x 5.9 = Total Gallons.
FREE FORM	Surface Area (Sq. Feet) x Average Depth x 7.5 = Total Gallons]

{or}

HOW TO CALCULATE POOL CAPACITY IN U.S. GALLONS	
POOL SHAPE	FORMULA (Dimensions in feet)
Rectangular:	L x W x AD x 7.5 = total gallons
Round:	Di x Di x AD x 5.9 = total gallons
Oval:	Maximum L x maximum W x AD x 5.9 = total gallons
Freeform:	Surface area (sq. feet) x AD x 7.5 = total gallons

L = Length, W = Width, AD = Average Depth, Di = Diameter

{or}
