

## BACK PANEL

SYNERGIZED - NON-RESIDUAL - CONTACT KILL - PLEASANT SCENT - HIGHLY CONCENTRATED

MONQUITTOES, FLIES, WASPS, AND FLYING MOTHS: Before spraying, close room, e.g. windows and doors. Direct spray towards the upper portions of the room and towards the ceiling with the nozzle. Spray liquid contents of the can directly onto the insects. Do not spray directly onto the person. Do not spray directly onto the face, neck, or clothing. Do not spray directly onto the eyes, nose, or mouth. Do not spray directly onto the skin, hair, or clothing.

ANTS, BEES, WASPS, AND TERMITES: Before spraying, close room, e.g. windows and doors. Direct spray towards the upper portions of the room and towards the ceiling with the nozzle. Also spray into holes, cracks, crevices, and other insect harborage, e.g. refrigerators, ovens, etc. Spray other localized areas infested with these pests. Repeat treatment as required.

CARPET BEETLES: Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets, where insects may be found. Treat crevices, cracks or closets and infested areas of shelving. Repeat as necessary.

AIRBORNE is a non-residual insecticide. Contact insects directly whenever possible.

SHAKE WELL BEFORE USING.

DIRECTIONS FOR USE: Hold can upright and spray infested surfaces only until wet. Hold nozzle from 3 to 6 inches away from surface to be treated. Do not invert can. Direct spray so as to hit or contact insects to be controlled.

Food should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

## LEFT PANEL

## CAUTION

WARNING: FLAMMABLE! Contents under pressure. Do not use near fire, sparks, or flame. Do not puncture or incinerate container. Exposure to temperature above 130°F may cause bursting. Avoid contamination of food stuffs.

Remove pets and birds from areas to be sprayed. Cover fish aquariums before spraying. Do not remain in treated areas. Ventilate the area after treatment is completed.

NET WEIGHT 15 OZ.
