SYS-TEM

DIRECTIONS: SYS-TEM kills aphids, mites, thrips, whiteflies, leafhoppers, and holly leaf miner on ornamental trees, shrubs and flowers. SYS-TEM kills insects that come in direct contact with spray solutions. In addition, when spray solutions are applied to plant foliage and root system, they are absorbed into the plant and kill sucking insects that feed on the plant.

SYS-TEM may be used in all types of sprayers. Adjustments should be made before use to avoid injury to plants.

HOW TO USE IN COMPRESSED AIR
Mix 1/2 oz. of SYS-TEM in 1 gallon of water. Spray thoroughly on both sides of leaves.

For more information, contact your local distributor or write to the manufacturer.
