

USE DIRECTIONS

FOR CLEANING:

Lightly soiled areas — surfaces to be cleaned should be mopped or brushed with a solution containing 3 ounces of Q-PLUS per gallon of water. Rinse cleaned area with fresh water.

Heavily soiled areas — mop or brush soiled surface with a solution containing 5-6 ounces of Q-PLUS per gallon of water. Rinse cleaned surface with fresh water.

GENERAL PURPOSE DISINFECTION:

To disinfect walls, floors and other hard surfaces in homes, schools, restaurants, rest rooms and other public areas, mop or brush surface to be treated with a solution containing 3 1/2 ounces of Q-PLUS per gallon of water. Surfaces that are heavily soiled should be cleaned with 2 ounces of Q-PLUS per gallon of water and then disinfected. Those surfaces which may later come in contact with food must be rinsed with clear water of drinking quality.

To disinfect locker rooms, shower stalls, walkways, food carts and other areas where frequent cleaning is required, mop area with a solution containing 2 ounces per gallon of water. This solution will destroy *Trichophyton interdigitale*, a common agent of athlete's foot.

GENERAL DISINFECTION:

ACCEPTED

(USE DIRECTIONS CONT.)

After cleaning, rinse all surfaces with water (drinking quality) before reuse.

DISINFECTANT:

To deodorize surface during cleaning, mop or brush surface with a solution containing 7 ounces of Q-PLUS per gallon of water.

Q-PLUS is an effective antibacterial cleaning agent for use in household, industrial and institutional cleaning. When used as directed, Q-PLUS will disinfect hard surfaces, such as walls, counter tops and furniture. It may be used on a variety of surfaces, such as wood, metal, plastic, glass, and fabric. It is safe for use on most surfaces and does not leave a residue. Q-PLUS is a powerful disinfectant and will destroy most bacteria, viruses, and fungi. It is also effective against mold and mildew. Q-PLUS is a powerful disinfectant and will destroy most bacteria, viruses, and fungi. It is also effective against mold and mildew.
