

DIRECTIONS

AS A SPRAY FOR ENCLOSED AREAS—Use as it comes from the container, spraying with the **WALTER JET POWER GENERATOR** for two minutes to cover an area of 196 sq. ft. Spray mist into the air two or three times daily. Spray up, and allow the fine mist to settle.

IF BLITZ is sprayed in an area where it may come in contact with food equipment or utensils, these surfaces should be removed or protected from exposure, or if exposed should be rinsed thoroughly with water.

AS A DEODORANT: Thoroughly clean around the source of the odor. Wipe the fixtures and equipment with a cloth saturated with BLITZ.

FOR AIR CONDITIONING UNIT: Spray BLITZ on the intake filters, repeating as often as necessary.

BLITZ

AIR SANITIZER DEODORANT

NOTICE

Storage in cold or freezing weather may cause this product to separate. This will not harm the product's performance. Simply allow it to warm to room temperature and stir thoroughly before use.

CAUTION

HARMFUL IF SWALLOWED. If swallowed, immediately induce vomiting, and call physician. **DO NOT SPRAY IN EYES.** In case of contact, immediately flush eyes with plenty of water.

Rinse empty container thoroughly with water and discard the container.

FLAMMABLE MIXTURE—DO NOT USE IN THE PRESENCE OF HEAT, SPARKS, OR OPEN FLAME.

EXTINGUISH ALL FLAMES OF PILOT LIGHTS BEFORE USING.
