

Debonair

AIR SANITIZER & DEODORANT

Debonair

Temperature is a major factor in the spread of bacteria and viruses. Ordinarily, when you perspire, you cool your body by evaporation. However, when you perspire at temperatures above 112° F., a temporary sanitization of the skin is required. This can be done by making periodic showers or baths.

For best results, use Blitz Air Sanitizer & Deodorant.

If infected, use Blitz Air Sanitizer & Deodorant in a well-ventilated center or other location where you can stand upright. Apply area to nose, mouth, throat, and under arms. Effects begin almost immediately. Continue application every 15 minutes until infection is gone.

DO NOT USE ON CHILDREN OR PREGNANT WOMEN.

DANGER: AIR SANITIZER & DEODORANT IS A STRONG AIR FRESHENER. DO NOT INHALE. INHALATION CAN CAUSE SORE THROAT AND SORED BREATHING.

DO NOT SPRAY IN THE FACE. DO NOT SPRAY IN THE EYES.
