**DIRECTIONS FOR USE**  
**APPLICATIONS: INSTRUCTIONS FOR CONTACT AND RESIDUAL SPRAYS**  
**FOR INDOOR USE.** In non food areas of food establishments, commercial, industrial, office, public, institutional and storage buildings, home ship cabins and hospitals. In hospitals patients removed prior to treatment. Also for use in mobile, and non food areas of trucks, boxcars, cargo holds. Do not use on electrical equipment surfaces that can be harmed or stained by water. Use indoors in dog kennels and horse stables, not for application if horses will be used. **CONTACT SPRAY - KILLS AND PREVENTS INFESTATIONS - COCKROACHES, CRICKETS, SILVERFISH, ANTS.** Apply as a contact spray tank with FLY OUT E. Keep spray nozzle about 8 to 12 inches from surface to be treated. Adjust pressure and nozzle to deliver a fine mist. When possible, spray directly on insects. Reduce infestations. Spray thoroughly into hiding places such as cracks, crevices, moist areas, opening pipes and sinks, under refrigerators and other appliances, baseboards, and storage areas. Apply spray up to 6 inches high. Do not spray on wet surfaces, but not to the point of run-off. Spray on insects where possible. Repeat as necessary.  
**ANTS:** To kill ants: Spray trails, nests and points of entry within buildings and homes. Spray on ants where they are seen. Repeat as necessary.  
**FLEAS:** Aids in the control of fleas on pet beds in horse stalls. Hold spray nozzle about 18 inches from area to be treated. Direct spray at resting areas around these areas. Apply spray until area is moist. Also spray entire inside of dog houses. Repeat as necessary. Do not allow contact treated areas until spray has dried. Do not cover animal feed before spraying. Also, treat dogs and horses with a registered flea control product they re-enter the treated area.  
**RESIDUAL SPRAY:** Kills the cockroaches, crickets, silverfish. Kills for up to 4 weeks. Spray baseboards, cracks, crevices, around door and window frames, and hiding places such as closets, in back of appliances, sinks and cupboards in kitchens and rooms. In basements, spray hiding places in cracks, crevices, lower walls and dark places. Apply as wet spray in a 4 to 6 inch band until area is thoroughly wet but not to the point of run-off. Repeat as necessary.
