ED. UNTS 1264-10

1. Wash the surface of the animal with a solution of 100 ppm available chlorine (100 ppm available chlorine = 100 mg/l available chlorine) for 30 minutes.

2. Wash the surface of the animal with a solution of 100 ppm available chlorine (100 ppm available chlorine = 100 mg/l available chlorine) for 30 minutes.

3. Wash the surface of the animal with a solution of 100 ppm available chlorine (100 ppm available chlorine = 100 mg/l available chlorine) for 30 minutes.

4. Wash the surface of the animal with a solution of 100 ppm available chlorine (100 ppm available chlorine = 100 mg/l available chlorine) for 30 minutes.

5. Wash the surface of the animal with a solution of 100 ppm available chlorine (100 ppm available chlorine = 100 mg/l available chlorine) for 30 minutes.

6. Wash the surface of the animal with a solution of 100 ppm available chlorine (100 ppm available chlorine = 100 mg/l available chlorine) for 30 minutes.

7. Wash the surface of the animal with a solution of 100 ppm available chlorine (100 ppm available chlorine = 100 mg/l available chlorine) for 30 minutes.

8. Wash the surface of the animal with a solution of 100 ppm available chlorine (100 ppm available chlorine = 100 mg/l available chlorine) for 30 minutes.

9. Wash the surface of the animal with a solution of 100 ppm available chlorine (100 ppm available chlorine = 100 mg/l available chlorine) for 30 minutes.

10. Wash the surface of the animal with a solution of 100 ppm available chlorine (100 ppm available chlorine = 100 mg/l available chlorine) for 30 minutes.

9. Fogging instructions: Use a ULTRAVIOLET CIRCULATOR fogger or other self-contained unit for fogging applications as an adjunct to standard disinfecting procedures. Fill it with 24 ounces per gallon solution of ~~FORMALIN~~ WITP-AMINE. Place the sprayer in the center of the room and at a height midway between the ceiling and floor. Turn the nozzle upward and set the fogging rate at maximum. This dispenses one gallon of solution in 15 minutes. Open closets, cabinets, and the like, and close doors, windows, and vents.

Do not remain in the room while fogging. Fog until all surfaces in the room have been wetted -- 15 minutes or longer, depending upon its size. Allow ten minutes after the unit has stopped before opening and entering the room.

CAUTION

-KEEP OUT OF REACH OF CHILDREN-

Harmful if swallowed. Avoid contact with skin and eyes. In case of contact, flush with plenty of water. If irritation persists, get medical attention.

Avoid contamination of foods.

Do not inhale spray or vapors from ~~FORMALIN~~ WITP-AMINE solutions. For best results, all surfaces to be sanitized should be clean at the time of application.
