WITT-O-LITE

BACTERIOSTATIC LIQUID DUSTMOP TREATMENT

ACTIVE INGREDIENTS:	0.25%
N-alkyl (50% C ₁₂ , 30% C ₁₄ , 17% C ₁₆ , 3% C ₁₈) dimethyl ethylbenzyl ammonium chlorides	0.10%
N-alkyl (60% C ₁₂ , 30% C ₁₄ , 5% C ₁₆ , 5% C ₁₈) dimethyl benzyl ammonium chlorides	0.10%
Ethanol	0.05%
INERT INGREDIENTS:	99.75%

WITT-O-LITE is a premium quality compound for use on dust mops, providing bacteriostatic activity to the treated mops.

Classified by Underwriters' Laboratories, Inc., as to fire hazard only. See UI index of products classified as to specific hazards only.

DIRECTIONS

Application to Clean Mop Heads: Part strands of a clean dust mop. Apply one ounce WITT-O-LITE per six inches of mop length, by pouring, spraying, or sprinkling. A more accurate method is to apply one ounce to each four ounces of cotton yarn. Hang up mop heads and allow WITT-O-LITE to penetrate and diffuse throughout the strands for 24 hours before using. Do not apply excess WITT-O-LITE. Treated mop strands should not be wet with WITT-O-LITE. If mop dries out in use, re-treat, using one-half amount indicated above.

Use of WITT-O-LITE-Treated Dust Mops: Sweep with the treated mops and note the difference! To remove dry soil which has been picked up, shake mop vigorously over waste receptacle.

Cleaning Dirty Mop Heads: When mop is dirty, rinse in water and soak in one of DeWitt's effective floor cleaners or disinfectant cleaners. Rinse thoroughly and dry. Re-treat as indicated above to clean mop heads.

WITT-O-LITE is emulsifiable, providing easy cleaning of mops. Strands can be restored to their original fluffy condition.

Do not re-use empty drum. Return to drum condition or destroy by perforating or crushing and burying in a safe place.

CAUTION
KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Contains Petroleum Hydrocarbons. If swallowed, do not induce vomiting. Feed milk, egg white, gelatin solution or if these are not available, drink large quantities of water.
