DAIRY SANITIZER

UNDER THE FEDERAL INSECTICIDENET CONTENTS/LBS.

FOR ECONOMIC POISON REGISTER-ED UNDER NO. SUBJECT TO ATTACHED COMMENTS.

A Powdered Chlorine-Type Dairy Sanitizer

DEWITT D.P. 116 is a chlorine-type sanitizer especially formulated for the dairy industry. Solutions of DEWITT D.P. 116 provide fast-acting and efficient chlorine to kill many bacteria and to help maintain sanitary conditions in the dairy.

| ACTIVE INGREDIENTS | | 95.25% |
|------------------------|--------|--------|
| Trisodium Phosphate | 87.15% | |
| Sodium Carbonate | 5.00 | |
| Sodium Hyprochlorite | 3.09 | |
| Potassium Permanganate | .01 | |
| INERT INGREDIENTS | | 4.75% |

DIRECTIONS FOR USE

All surfaces and equipment which are to be sanitized with DEWITT D.P. 116 should first be thoroughly cleaned with one of DeWitt's efficient dairy cleaners.

To Sanitize: Use the following concentrations and brush, spray, or circulate the DEWITT D.P. 116 solution on or through the equipment. Allow the solution to contact the surface being sanitized for a minimum of two minutes and rinse throughly.

Raw Milk Tanks and Milk Tankers: 8 ozs. per gal. water (provides 2000 ppm available chlorine)

Pasteurizer Holding Tanks: 8 ozs. per gal. water (pro-

vides 2000 ppm available chlorine).

Bottle Filling Machine; H.T.S.T. Exchange Unit; Homogenizer; Clarifier; Plate Cooler; Separator; Pumps and Fittings: 3 ozs. per 7 gals. water. (provides 100 ppm available chlorine)

Rubber Parts from Bottle Filling Machine: Soak (overnight if possible) in solution containing 2 ozs. DEWITT D.P. 116 per gal. water. (provides 500 ppm available chlorine).

Carton Filling Machine: 8 ozs. per gal. water. (provides 2000 ppm available chlorine)

DEWITT D.P. 116 can be used as a light duty general purpose cleaner and stain remover. For this purpose a concentration of 2 to 4 ounces of DEWITT D.P. 116 per gallon of water should be brushed or sprayed on the surface. Warm or hot water will increase the effectiveness of DEWITT D.P. 116 for this purpose.

Harmful if swallowed. Avoid contact with skin and eyes. Avoid contamination of feed and foodstuffs. In case of contact with skin or eyes, flush with plenty of water; for eyes, get medical attention. Avoid inhalation of fumes.

KEEP OUT OF THE REACH OF CHILDREN.
