

DE WITT PET 48

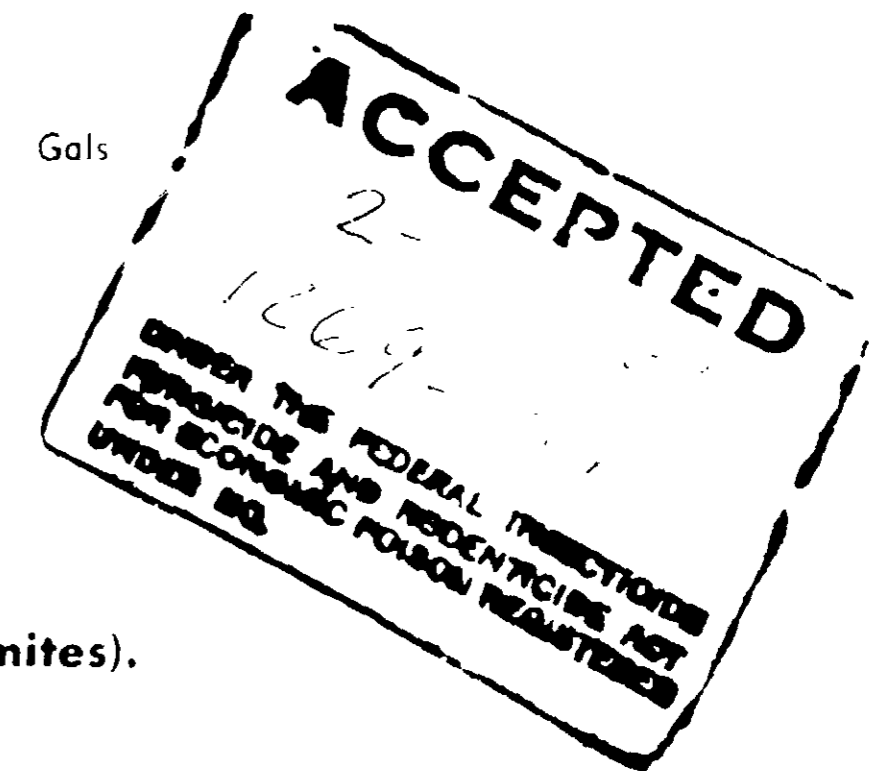

MANUFACTURERS OF
INDUSTRIAL MAINTENANCE
PRODUCTS

25% CHLORDANE EMULSIFIABLE CONCENTRATE

FOR USE ON DOGS

For External Use Only—Dilute Before Use

Net Contents Gals

Important: Use only as directed. Kills External Parasites (ticks, fleas, lice, and sarcoptic mange mites).

ACTIVE INGREDIENTS:

| | |
|------------------------|-----|
| Technical Chlordane* | 25% |
| Petroleum Hydrocarbons | 70% |

| | |
|---------------------------|----|
| INERT INGREDIENTS: | 5% |
|---------------------------|----|

*Equivalent to 15% octachloro-4, 7-methanotetrahydroindane and 10% related compounds.

DOGS: Prepare an emulsion of 2½ fluid ounces of DE-WITT PET 48 to 1 gallon of water. Mix well. Bathe animal with soap and water, apply dilution to entire body except eyes with cloth or sponge, or by dipping. Let dry.

REINFESTATION: To prevent reinfestation, repeat no more frequently than once every 2 or 3 weeks and use suitable preventive measures.

CAUTION

KEEP OUT OF REACH OF CHILDREN.

Contact with skin may cause toxic symptoms. Avoid contaminating food or food containers. Not for use on cats or on dairy or meat animals.

WARNING: NOT FOR HUMAN USE. HARMFUL IF SWALLOWED. Keep this material away from children. Avoid contamination of foodstuffs. Avoid inhalation of concentrate or diluted material. Chlordane is toxic and when in solution can be absorbed through the skin. Wash hands thoroughly with soap and water after handling or after using the diluted product on animals.

ANTIDOTE: *Internal:* Drink emetic of mustard. Call a physician immediately.
External: Wash with soap and water.
