## GARBAGE TRUCK MAINTAINER

**Cleans**  
**Deodorizes**

**Kills Fly Maggots**  
**Dissolves grease**

ACTIVE INGREDIENTS:	83.85%
Orthodichlorobenzene	54.00%
Aromatic Petroleum distillate	27.01%
Coal tar neutral oils	2.56%
Coal tar acid oils	0.28%
INERT INGREDIENTS:	16.15%

GARBAGE TRUCK MAINTAINER. (A DEWITT Model 400 Sprayer is ideal for this purpose.) Allow to soak a minimum of five minutes, or as long as is practical. Rinse with a strong stream of water.

DEWITT GARBAGE TRUCK MAINTAINER fills a long required need. Its powerful solvents and emulsifiers dissolve grease and allow its easy removal with rinse water. An effective insecticide kills fly maggots if present. An active deodorant overcomes obnoxious odors. These actions combine to make work around a garbage truck less objectionable.

**CAUTION**  
**KEEP AWAY FROM CHILDREN.**  
Harmful if swallowed

Avoid contact of DEWITT GARBAGE TRUCK MAINTAINER with skin, eyes, or clothing. Harmful if swallowed. Avoid prolonged breathing of vapor. If skin is contacted, immediately flush off with water. For eyes, flush with water for 15 minutes. If irritation persists, get medical attention.

### Directions for Use

*To Clean and Kill Maggots:* Completely wet down all inside surfaces of the garbage truck with DEWITT GAR-

U.S.D.A. Reg. No. 1269-78
