DEWITT FORMULA 161

WEED KILLER

Non-Selective Type

Concentrate — To Be Diluted With Water or Petroleum Distillate Before Use.

Multi-Purpose — Kills Most Growth — Kills Johnson grass and Poison Ivy

ACTIVE INGREDIENTS:	91.62%
Heavy Aromatic Solvent	91.10%
Bromacil (5-Bromo-3-cyclohexyl-6-methyluracil)	0.52%
INERT INGREDIENTS:	8.38%
	100.00%

GENERAL INFORMATION

DEWITT FORMULA 161 Weed Killer is a water-emulsifiable concentrate to be diluted with water and applied as a spray on non-cropland areas where bare ground is desired. It is an effective general herbicide for the control of many annual and perennial weeds and is particularly useful for the control of perennial grasses.

TIMING

To control most weeds for an extended period of time on non-cropland areas such as railroad, highway, and pipeline right-of-ways, pastures, farms, lumberyards, storage areas, and industrial plant sites, for best results, apply DEWITT FORMULA 161 in use solution when weeds are less than six inches high. Do not apply when ground is frozen.

DIRECTIONS

For annual weeds and grasses such as foxtail, ryegrass, wild oats, crabgrass, and ragweed, mix one part DEWITT FORMULA 161 with nine parts water and apply with a sprayer at the rate of one gallon per 100 square feet.

For perennial weeds and grasses such as bluegrass, redtop, purpletop, aster, dandelion, and goldenrod, mix one part DEWITT FORMULA 161 with four parts water and apply with a sprayer at the rate of one gallon per 100 square feet.

For Johnson grass and other hard-to-kill perennial weeds and grasses such as Bermuda grass, Dallis grass, outgrass, saltgrass, and harsetail, mix one part DEWITT FORMULA 161 with two parts water and apply with a sprayer at the rate of one gallon per 100 square feet.

Dilutions of DEWITT FORMULA 161 with water form an emulsion. It should be stirred thoroughly before use. If the emulsion stands for any length of time before use, it should be restirred.

For faster kill of established weeds and grasses, dilute DEWITT FORMULA 161 with kerosene, mineral spirits, or fuel oil in the same quantities as called for above for water.

CAUTION

— KEEP OUT OF REACH OF CHILDREN —

Harmful if swallowed. May irritate eyes, nose, throat, and skin. Avoid breathing of spray mist. In case of contact, flush skin or eyes with plenty of water; for eyes get medical attention.

Do not use, pour, spill, or store near heat or open flame.

IMPORTANT!

DO NOT apply, drain, or flush equipment on or near desirable trees or other plants or on areas where their roots may extend, or in locations where the chemical may be washed or moved into contact with their roots. DO NOT use on lawns, walks, driveways, tennis courts, or similar areas. Prevent drift of spray to desirable plants. DO NOT contaminate irrigation or domestic waters. Keep from contact with fertilizers, insecticides, fungicides, and seeds. Thoroughly clean all traces of DEWITT FORMULA 161 from application equipment immediately after use; otherwise, injury to desirable vegetation may result when equipment is used again. DO NOT re-use container; destroy when empty. DO NOT contaminate water cleaning equipment or disposing of wastes.
