~~Non-Flammable~~

KILLS WASPS, SPIDERS, HORNETS, BEES, AND YELLOW JACKETS

ACTIVE INGREDIENTS:	100%	Effective at a distance of 6 to 7 to 8 feet
Permethrin	100%	
Propellant		
Water		
Surfactant		
Stabilizer		
Colorant		
Flavorant		
Preservative		
Other Inert Ingredients		

### CAUTION

Read directions carefully. Do not use in or near living quarters. Do not use on children's toys. Do not use on plants.

### READ DIRECTIONS CAREFULLY

Point spray nozzle toward insect's nest, hole or crevice, where infestation is known to exist. Spray area until saturated with material. Also spray around in the general area until it is completely wet. This treatment will have a residual control action and prevent reinfestation for 2 to 4 weeks. If the residual film becomes ineffective on account of rain or other causes, repeat treatment.

Always spray with the wind at the user's back.

### INDUSTRIAL SPECIFICATIONS

1. Net Weight: 10.0 oz. (283.5 g)

### DIELECTRIC

Specific Gravity: 1.000  
Dielectric Constant: 1.000  
Insulation Resistance: 1000 ohm-cm

### CAUTION
