Active Ingredients

1. Cresol	50.0
2. Cresol p-tertiary butyl	5.0
3. Cresol p-chlorophenyl	5.0
4. Methyl Salicylate	5.0
5. Sodium salt of styrene sulfonic acid	1.6
Total	76.6

There is no concentrate. This is a ready-to-use product.

CAUTION

This disinfectant should not be taken internally. If it is, it should be treated as a poison.

Do not use on eyes, white clothing, or gray hair. Rinse thoroughly with water with an emetic tableting of mentam. Rinse thoroughly with warm water. CONSULT A PHYSICIAN. If concentrated disinfectant comes in contact with the skin, flush with water and bathe with alcohol.

DIRECTIONS

For general disinfection, use 1 ounce per gallon of water. Apply to all surfaces that require disinfection. Allow contact with all infected areas for 2 minutes. For floors, use 1 ounce per gallon of water. For walls, use 1 ounce per gallon of water. For ceilings, use 1 ounce per gallon of water. For rooms, use 1 ounce per gallon of water. For bathrooms, use 1 ounce per gallon of water. For lavatories, use 1 ounce per gallon of water. For kitchens, use 1 ounce per gallon of water. For dining rooms, use 1 ounce per gallon of water. For bedrooms, use 1 ounce per gallon of water. For living rooms, use 1 ounce per gallon of water. For hallways, use 1 ounce per gallon of water. For stairs, use 1 ounce per gallon of water. For closets, use 1 ounce per gallon of water. For attics, use 1 ounce per gallon of water. For basements, use 1 ounce per gallon of water. For garages, use 1 ounce per gallon of water. For outdoors, use 1 ounce per gallon of water. For indoors, use 1 ounce per gallon of water. For everywhere, use 1 ounce per gallon of water.

To disinfect kitchen tables, drainboards, marble tile, linoleum, limestone, glass, rubber, wrup cans, soda fountains, refrigerators, cooling rooms, refrigerator cans, garbage cans, rinse thoroughly with a dilution of 1 ounce of this product to a gallon of water after cleaning in regular manner, allowing contact for 5 minutes.

For more drastic conditions, such as disinfection of exceptionally dirty urinals, garbage cans, etc., a most thorough cleaning must be done by use of strong cleaning solutions, removing all dirt, then making sure disinfectant comes in contact with all infected areas, disinfect with a solution of 2 ounces of disinfectant per gallon and allow 2 minutes contact time.

KEEP OUT OF THE REACH OF CHILDREN.
